

Assessments UG Students

We have now reviewed our approach to assessments to make sure it is fair, flexible and leaves no student disadvantaged.

General Principles for Block 3 Assessments – DMU Dubai

1. Where possible, all Block 3 assessments will be submitted or taken as intended and in line with the approved module specification.
2. All students with coursework submissions due in Block 3 will automatically be given a deadline extension of five working days with no formal deadline extension request required (This does not apply to scheduled exams or presentations).
3. Where exams or practical assessments cannot be delivered as intended, these assessments will either be moved online (where practicable), be delivered via an alternative assessment method, or be deferred to the next available opportunity (uncapped).
4. If students feel unable to submit their coursework within the five working day extension period or feel unable to engage with a scheduled exam or practical assessment, they may request to defer the assessment to the next available opportunity. No formal application will be required **but students will be required to inform the University of their intention to defer.**
5. If students' Block 3 assessments are deferred, the University will make every effort to ensure that students are able to complete their deferred assessments in a timely manner.

General Principles for Block 1 and 2 In-Year Retrievals – DMU Dubai

1. Submission deadlines for in-year retrievals (reassessments) will be extended to the following:

- Block 1 in-year retrievals – 12 noon on Friday 3rd April 2026
 - Block 2 in-year retrievals – 12 noon on Friday 10th April 2026
2. Where exams or practical reassessments cannot be delivered as intended, these reassessments will either be moved online (where practicable), be delivered via an alternative assessment method, or be deferred to the next available opportunity.
 3. If students feel unable to submit or engage with their reassessment, they may request to defer the reassessment to the next available opportunity. No formal application will be required but **students will be required to inform the University of their intention to defer.**
 4. If students' Block 1 and/or 2 reassessments are deferred, the University will make every effort to ensure that students are able to complete their deferred reassessments in a timely manner.

For reassessments marks are already capped and will remain capped.
