

Welcome to Marking Smart

What I will cover in this Presentation

- Where This Journey Started
 - What are you assessing for
 - Smart Learning Outcomes
 - Creating a shared language
 - Continual Assessment / Scrum Project Management
 - Can any feedback be automated
 - Feedback vs Feedforward
- 

I'M BEING TAUGHT

TO SUCK EGGS HERE

Where the Journey Started

Lego MiniFigure Project

A 1-week group project for 1st year students.

Challenged to create a new MiniFigure concept for Lego and build a 10x scale model.

What
do I have to assess?

What are you assessing for?

- Assessment **for** Learning
- Assessment **as** Learning
- Assessment **of** Learning

Open University 2020

Assessment **for** Learning

Assessment for learning gives both educators and learners information about what learners know so that:

- educators can target future teaching and resources, and feedback to address any areas in which a particular learner needs further development
- learners can determine areas of study that need additional attention.

Black and William (1998) showed that assessment for learning can make a significant contribution to learner achievement and attainment.

Assessment for learning can take place before a course of study, in the form of diagnostic assessment intended to identify learners' existing knowledge, skills, strengths, needs, interests and learning preferences. Such assessment will often collect information from multiple sources, including the learner and previous educators.

Assessment for learning can also take place during a course of study, with the aim of giving learners and educators information that can help learners to improve their knowledge and skills; for example, by an educator adjusting their teaching methods, giving the learner additional resources or providing resources in a different format.

Assessment **as** Learning

Assessment as learning emphasises the learner's role, engaging them in self-assessment as active participants in directing their own learning.

Often featuring reflection-based activities, this approach requires educators to help learners critically analyse their own learning.

Assessment **of** Learning

Assessment of learning, or summative assessment, is generally used to confirm what learners know, and can do, and whether they have achieved the related learning outcomes. It can also be used to rank learners in order of ability.

SMART Learning Outcomes

- **Specific** – what will show the objective has been met?
- **Measurable** – what aspect of the objective can be measured?
- **Attainable** – is the objective both realistic and challenging?
- **Relevant** – is the objective aligned with learners' goals?
- **Time-bounded** – how soon should the objective be achieved?

Creating a Shared Language

Mastery

Excellent

Good

Satisfactory

Not Completely Satisfied

Partial Understanding

Failed

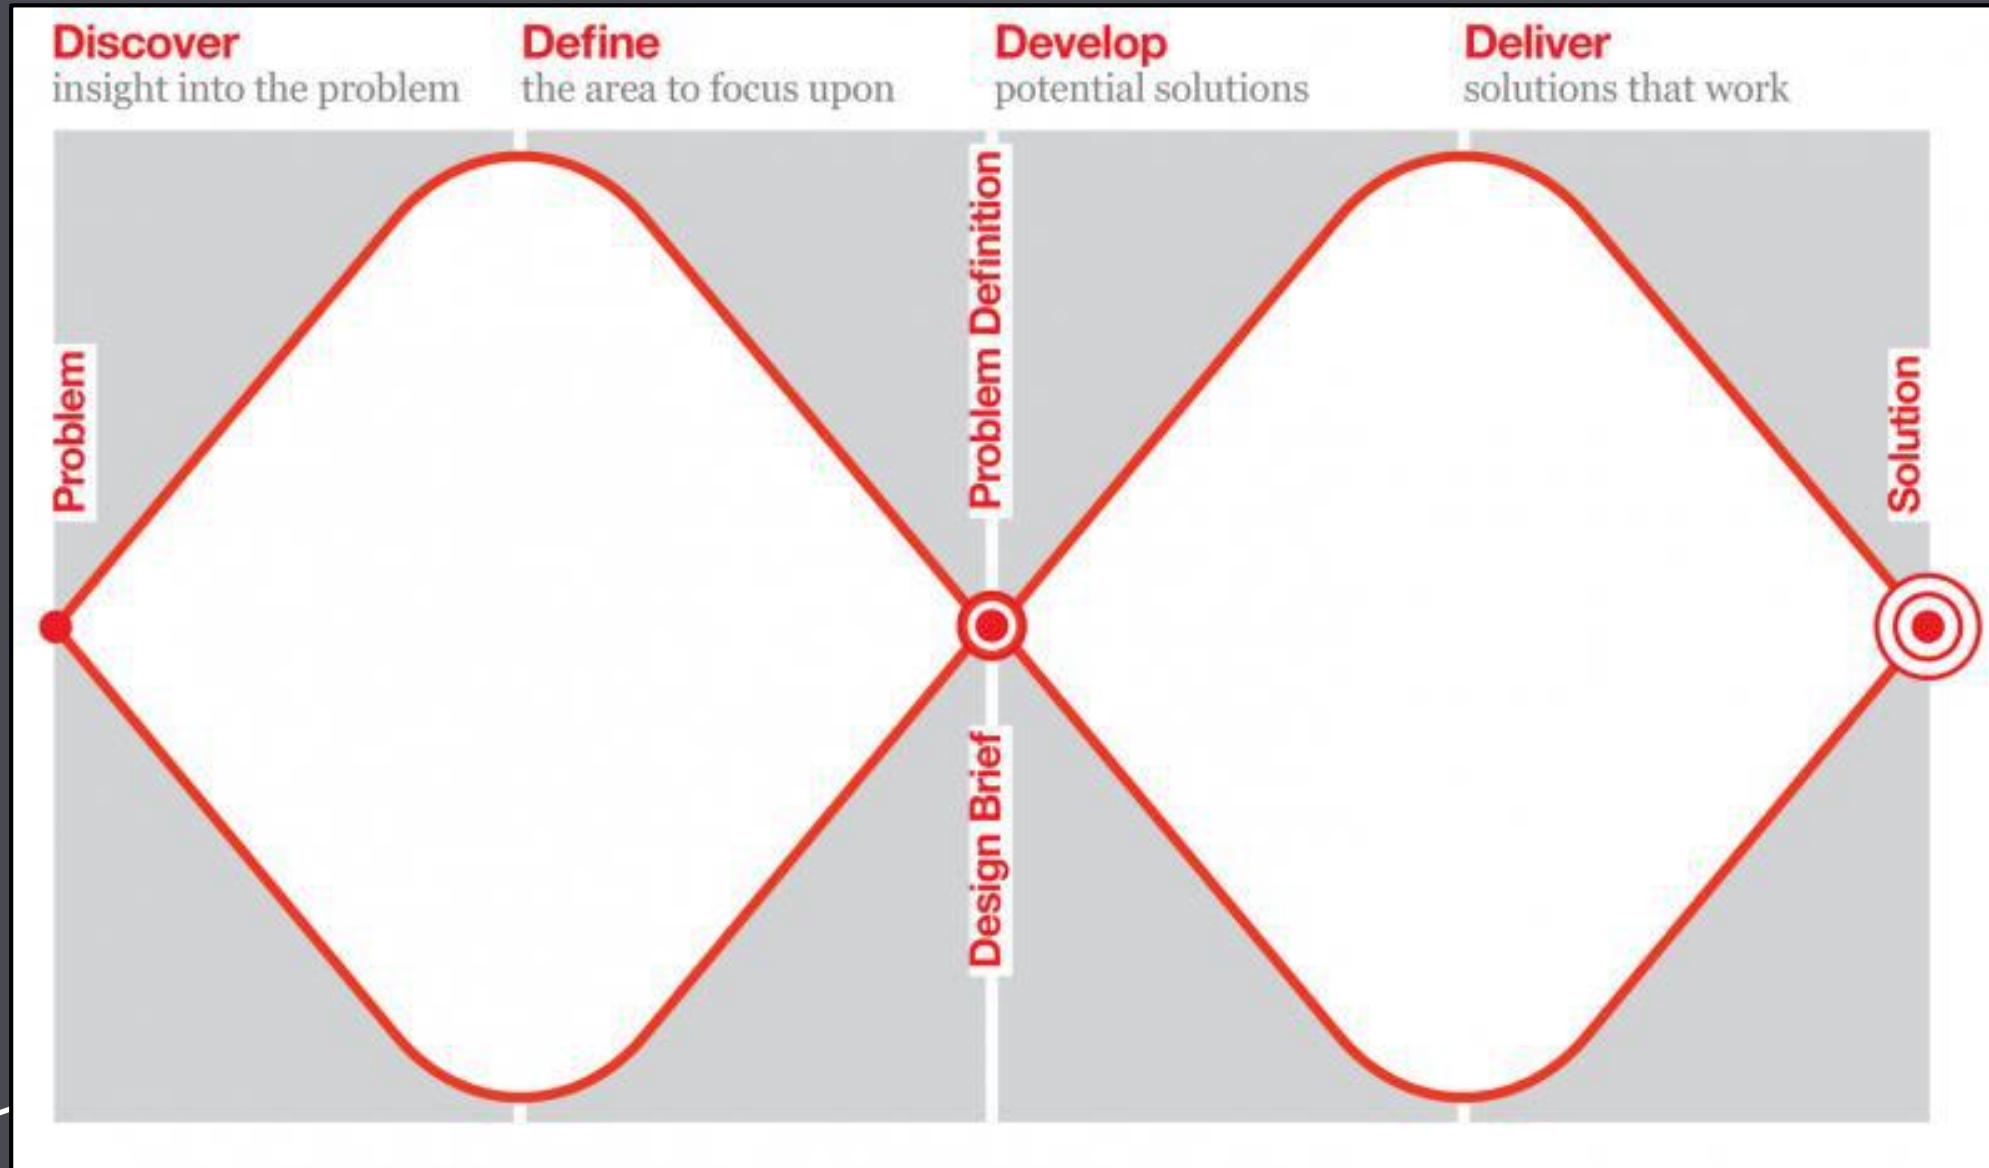

Staff Marking Matrix:

Grade	Description	Strongly Met	Met	Partially Met
80% +	You brought external knowledge or skills to demonstrate your mastery of this learning outcome	88 - 100	85	82
1 st	You have showed an excellent understanding of this learning outcome	78	75	72
2:1	You have showed a good understanding of this learning outcome	68	65	62
2:2	You have met this learning outcome to a satisfactory standard	58	55	52
3 rd	You have not completely satisfied this learning outcome	48	45	42
CF	Some elements of your work indicate a partial understanding of this learning outcome	38	35	32
F	You have failed to understand this learning outcome	29 - 1		0

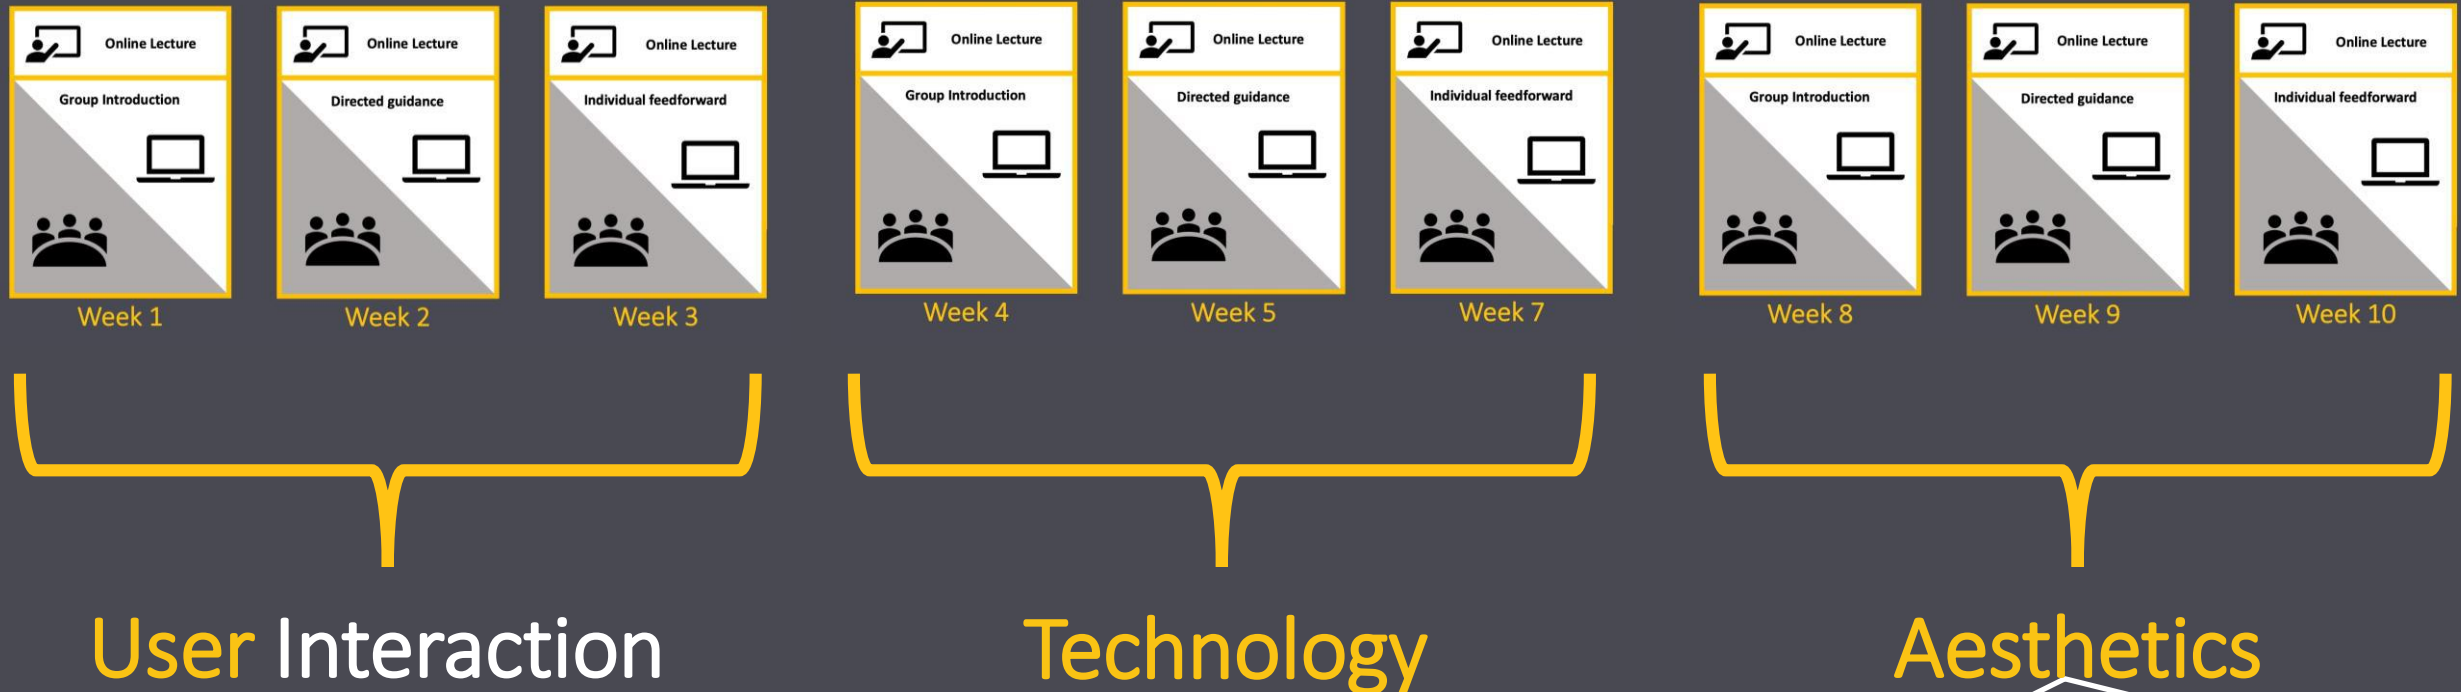

Student Description

Grade	Description	
80% +	You brought external knowledge or skills to demonstrate your mastery of this learning outcome	87% - 100% In your work you have evidenced external knowledge and/or skills that demonstrate your mastery of this learning outcome at an exceptional level with very only minor errors. 86% - 83% In your work you have evidenced a mastery in your understanding of this learning outcome 82% - 80% In your work you have evidenced a degree mastery of your understanding of this learning outcome
		77% - 79% In your work you have evidenced a creatively excellent understanding of this learning outcome 76% - 73% In your work you have evidenced an excellent understanding of this learning outcome 72% - 70% In your work you have evidenced some excellent examples of your understanding of this learning outcome
1 st	You have showed an excellent understanding of this learning outcome	67% - 69% In your work you have evidenced a very good understanding of this learning outcome 66% - 63% In your work you have evidenced a good understanding of this learning outcome 62% - 60% In your work you have evidenced some good examples of your understanding of this learning outcome
		57% - 59% You have shown some strong evidence in your submission that satisfies this learning outcome 56% - 53% You have shown evidence in your submission that satisfies this learning outcome 52% - 50% You have shown some weak evidence in your submission that satisfies this learning outcome
2:1	You have showed a good understanding of this learning outcome	47% - 49% Your evidenced work has made some attempt to satisfy this learning outcome 46% - 43% Your evidenced work has not completely satisfied this learning outcome 42% - 40% Your evidenced work has made a poor attempt to satisfy this learning outcome
		37% - 39% Most elements of your submission evidence a partial understanding of this learning outcome 36% - 33% Some elements of your submission evidence a partial understanding of this learning outcome 32% - 30% Very few elements of your submission evidence a partial understanding of this learning outcome
2:2	You have met this learning outcome to a satisfactory standard	29% - 1% Failed to submit or omitted to evidence anything more than a low level of understanding of this learning outcome
		0% You have not submitted any work for this learning outcome
3 rd	You have not completely satisfied this learning outcome	
CF	Some elements of your work indicate a partial understanding of this learning outcome	
F	You have failed to understand this learning outcome	

Continual Assessment or Scrum Project Management

An Example of a Term 1 Module

Automated Feedback

57% - 59%

You have shown some strong evidence in your submission that satisfies this learning outcome

56% - 53%

You have shown evidence in your submission that satisfies this learning outcome

52% - 50%

You have shown some weak evidence in your submission that satisfies this learning outcome

Current generic words

87% - 100%

In your work you have evidenced **external knowledge and/or skills that demonstrate your mastery** of this learning outcome at an exceptional level with very only minor errors.

86% - 83%

In your work you have evidenced a **mastery** in your understanding of this learning outcome

82% - 80%

In your work you have evidenced a **degree mastery** of your understanding of this learning outcome

77% - 79%

In your work you have evidenced a **creatively excellent** understanding of this learning outcome

76% - 73%

In your work you have evidenced an **excellent** understanding of this learning outcome

72% - 70%

In your work you have evidenced **some excellent examples** of your understanding of this learning outcome

67% - 69%

In your work you have evidenced a **very good** understanding of this learning outcome

66% - 63%

In your work you have evidenced a **good** understanding of this learning outcome

62% - 60%

In your work you have evidenced **some good examples** of your understanding of this learning outcome

57% - 59%

You have **shown some strong evidence in your submission that satisfies** this learning outcome

56% - 53%

You have **shown evidence in your submission that satisfies** this learning outcome

52% - 50%

You have **shown some weak evidence in your submission that satisfies** this learning outcome

47% - 49%

Your evidenced work has **made some attempt to satisfy** this learning outcome

46% - 43%

Your evidenced work has **not completely satisfied** this learning outcome

42% - 40%

Your evidenced work has **made a poor attempt to satisfy** this learning outcome

37% - 39%

Most elements of your submission evidence a partial understanding of this learning outcome

36% - 33%

Some elements of your submission evidence a partial understanding of this learning outcome

32% - 30%

Very few elements of your submission evidence a partial understanding of this learning outcome

29% - 1%

Failed to submit or omitted to evidence anything more than a low level of understanding of this learning outcome

0%

You have **not submitted any work** for this learning outcome

Feedback vs Feedforward

CPD – Module Shell

Thank You
for your attention

Any Questions?

An abstract graphic at the bottom of the slide consisting of several thin white lines that intersect to form a series of overlapping, irregular geometric shapes, resembling a stylized mountain range or a network diagram.
