**DE MONTFORT
UNIVERSITY
LEICESTER**

Academic regulations

for taught programmes

In effect for 2022/23.
Applies to students in level 4 (first year)
undergraduate (from September 2022).

Everything you need to know about the
regulations affecting student registration and
academic study at DMU, from assessment and
progression, through to awards and beyond.

Introduction

Who do these regulations apply to?

These regulations apply to undergraduate students in level 4 (first year) registered from September 2022, both on block delivery programmes and on programmes with other delivery patterns. This includes part-time students who initially enrolled in 2021/22 and those who are repeating level 4 in 2022/23.

Please visit the academic regulations webpage to access separate regulations which apply to the following students:

- Undergraduate students who first registered with the university from September 2022 and are continuing on to levels 5, 6 and 7
- Taught postgraduate students

How the regulations are managed

The academic regulations are managed by the university's Taught Programmes Management Committee (TPMC), with support from the Department of Academic Quality (DAQ). The committee has representatives from each faculty, and includes student representatives from the university and from De Montfort Students' Union (DSU).

The regulations are reviewed and re-issued on an annual basis at the start of each academic session. Content that is new from the previous edition is flagged in the margin:

What if changes have to be made?

The university may sometimes need to make changes to these regulations. Changes are made by the TPMC and approved by the university's Academic Board. An annual digest of regulatory changes is available on the academic regulations webpage.

The university makes every effort to ensure that any changes made will not adversely affect students. This may mean that where significant changes have been made, there will be a transitional period between old and new regulations. During this period the university will operate more than one set of regulations and students will be given the best outcome of these.

What happens when programmes have different regulations?

Some programmes require different regulations to those outlined in this document. This is normally to meet the requirements of Professional, Statutory or Regulatory Bodies (PSRBs). These are known as programme-specific regulations and are provided separately.

How to use this document

These regulations have been written and presented for maximum ease of use. The sections are organised in the order of a typical student journey; from enrolment to assessment, progression through the programme to receiving an award. Additional sections then follow covering times when a student may deviate from this path, including deferrals or interruption, changing programmes or withdrawing from studies, how prior learning is recognised and studying abroad. Each section starts with a brief introduction, outlining what is included in the section and why such regulations exist.

The document is intended to be accessible to all users, particularly those with disabilities, specific learning styles or needs. It has been written following the principles of the plain English campaign, which strives for clear and concise public information for the benefit of all. The

regulations have been organised and presented adopting best practice to improve ease of reading. Markers have been added to help identify regulations that apply specifically to different types of provision, for example APP for apprenticeships.

Built-in features have been used to help people with different abilities and disabilities to read the content more easily. Please press the 'control key' and 'click' on the relevant text within the contents page to follow the link directly to a specific regulation or section. To assist with navigating within the document, further clickable links have been provided to take you to relevant content that has been cross-referenced.

If you have any difficulties with this document, please contact DAQ@dmu.ac.uk.

Department of Academic Quality (DAQ), September 2022

Contents

Section 1

Study

The majority of students at De Montfort University (DMU) enrol on a programme which leads to an academic award, for example BA (Hons) English. Programmes are made up of modules which have set credit values and levels; an award is made when a student has passed sufficient modules to meet the credit requirements of the awards.

Occasionally students may enrol for individual modules only, without intending to gain an award. These are known as continuing professional development (CPD) modules.

Where do I go for more information?

For further information about your DMU programme, please see the module and programme specifications contained in your student handbook. A glossary is available should you need an explanation of the terminology used within this document.

Need help?

For advice and guidance about studying at DMU, please contact your programme leader, module leaders or the Student Advice Centre.

Some programmes may have different requirements from those outlined in this section. Please refer to the programme-specific regulations for details.

Introduction to modules

1.1   Each module is a stand-alone learning package worth a number of credits at a specific level of study.

1.2   Undergraduate modules are set at levels 4, 5 or 6 of the Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies (FHEQ).

1.3   The standard undergraduate module is worth 30 credits. A limited number of 15-credit modules may be available as outlined in regulation 1.15.

1.4   Other module sizes may be required for apprenticeship programmes to accommodate integrated and integrated/aligned End Point Assessments (EPAs). The credit weighting of EPA modules is determined by the relevant apprenticeship standard's assessment plan.

1.5   Other module sizes may also be used in programmes which do not run in block delivery mode.

1.6   Some modules, normally relating to professional practice in programmes, are zero-credit modules, which means that they don't have a credit weighting.

1.7   For each credit, a student should expect to study for 10 hours. This includes taught sessions, self-directed study and assessments.

1.8   Modules can be used on more than one programme.

1.9   Within the context of a programme a module may be designated as must-take (compulsory). This means that students must study this module to be eligible to gain their intended award.

1.10   Undergraduate modules can also be designated as must-pass within a programme. This means that students must pass the module to be eligible to gain their intended award; compensation is not available for must-pass modules.

Students enrolled on individual modules

1.11   Students may enrol on one or more individual modules for continuing professional development (CPD) purposes instead of enrolling on a programme.

1.12   Students who receive credits for passing individual modules may apply via the Recognition of Prior Learning (RPL) process to use those credits in admission to a programme.

Introduction to programmes

1.13   Programmes are coherent groups of modules which lead to a specified academic award. The majority of students who enter the university enrol on a programme. Programmes are sometimes also known as courses.

1.14   Undergraduate programmes normally consist of four 30 credit modules per level of study. A full-time student would usually complete a level of study within one calendar year. Modules are delivered sequentially, in seven-week blocks. There are two blocks in each 15-week semester, four blocks in total in an academic year.

1.15   With faculty permission one block in each undergraduate level of study may consist of two 15 credit modules.

1.16   With faculty permission two 30 credit undergraduate modules may be delivered in parallel over two blocks.

1.17   Undergraduate programmes have no module choice at level 4; students study a fixed curriculum. Programmes with specified routes are an exception as they offer module choice in block three which determines the route a student will follow at levels 5 and 6.

1.18   A limited choice of modules may be available in level 5, normally in block three. A wider choice of modules may be available in level 6 of honours degrees and levels 6 and 7 of integrated master's degrees.

1.19   The university offers undergraduate major/minor programmes. One subject is the main focus of study worth 90 credits, and 30 credits is allocated to a second subject. Subject A is normally taught in blocks one, two and four and subject B in block three.

1.20   Some programmes offer year-long credit-bearing work placements. At undergraduate level the year placement is normally taken between levels 5 and 6.

1.21   Part-time programmes will be delivered in alternate blocks, equating to 60 credits per academic session or may be delivered in two consecutive blocks equating to 60 credits per academic session

1.22   Some programmes may be delivered in different patterns than block delivery. Such programmes may include those delivered at partner institutions and those delivered as part of an apprenticeship.

Section 2

Assessment

Each module has one or more assessment tasks to test students' understanding of the module content. Each module has learning outcomes – things which students should be able to do on successful completion of the module – which are linked to the assessment tasks. Successful completion of the assessment tasks, as measured by a pass mark in the module, leads to the award of credit. In some modules, compensation for marginal failure may be offered, which also leads to the award of credit. By accumulating credit a student can become eligible to be given an award eg BA (Hons).

Sometimes students may experience difficulties with their assessments due to unforeseen circumstances, significant personal or medical issues. The university offers several options for students in such situations, which are detailed in section 5: deadline extensions, deferrals and leave of absence.

Where do I go for more information?

Further information about assessment can be found in the university's assessment and feedback policy. The policy also includes undergraduate and postgraduate mark descriptors which describe what a student must achieve to receive a mark in a particular mark range. Visit: dmu.ac.uk/assessment.

Please see the module and programme specifications contained in your student handbook for more information about assessment on your programme. A glossary is available should you need an explanation of the terminology used within this document.

Need help?

For advice and guidance about assessment at DMU, please contact your module leader or the Student Advice Centre.

Some programmes may have different requirements from those outlined in this section. Please refer to the programme-specific regulations for details.

Module assessment

2.1   Modules will be taught and assessed in English unless the university agrees differently as specified at programme validation.

2.2   Module assessment tasks will be marked anonymously, according to the requirements of the assessment and feedback policy, where possible. This means that the marker will not have access to students' names when marking work. Students will be advised if it is not possible to mark their assessments anonymously.

2.3   The assessment of a module will consist of one or more assessment tasks, with their individual contribution to the overall module mark shown as a percentage (weighting).

2.4   The module mark is determined by combining the module assessment task marks, according to the task weightings. Module marks are rounded to whole numbers; 0.49 and below is rounded down and 0.5 and above rounded up.

2.5   Module marks must be ratified by an assessment board before decisions regarding reassessment, progression between levels and awards are made. However, students may progress from one module to the next with unratified marks.

Passing a module

2.6 The pass mark for an undergraduate module is 40 per cent

2.7 Some modules don't have a percentage mark but are marked as pass or fail.

2.8 Normally a student is required to achieve at least the pass mark to pass a module. In some modules each individual assessment task must also be passed but in some modules not all components must be passed if an overall pass mark is achieved in the module.

Compensation

2.9 Compensation is available for module failure in undergraduate programmes, provided a student meets the following criteria:

- An overall module mark of 30-39 per cent has been achieved
- The other credits at that level have been passed
- The average mark for the level is 40 per cent or above

2.10 Compensation is limited to the following maximum number of credits per level of study:

Award	Maximum compensated credits		
	Level 4	Level 5	Level 6
Integrated master's degree with 30 credit sandwich placement	30	30	30
Integrated master's degree	30	30	30
Honours degree with 30 credit sandwich placement	30	30	30
Honours degree	30	30	30
Graduate diploma (GradDip)			30
Non-honours degree	30	30 credits at either level 5 or level 6 constituting no more than 25 per cent of the credits passed at level 5 or level 6	
Graduate certificate (GradCert)			0
Foundation degree (Fd)	30	30	
Diploma of higher education (DipHE)	30	30	
Higher National Diploma (HND)	30	30	
Higher National Certificate (HNC)	30		
Certificate of higher education (CertHE)	30		
University Certificate of Professional Development (UCPD)	0		

2.11 Where the above criteria are met and compensated credit is given, students may progress between levels of study and gain their award without being required to take reassessment in the compensated module(s).

2.12 Where the average mark for the level is 39 per cent or below, students are required to take reassessment in the failed modules to gain the average mark required for the level.

2.13   Compensation is not permitted in 'must pass' modules or in some programmes which are governed by a Professional, Statutory or Regulatory Body – these requirements are defined in the programme-specific regulations.

Unauthorised late submission of assessments

2.14   If an assessment is submitted later than the deadline without an approved extension or deferral the mark received will be capped.

2.15   If an assessment is submitted up to 24 hours past the deadline for submission, the mark for the work will be capped at the pass mark of 40 per cent.

2.16   If an assessment is submitted more than 24 hours late the work will receive a mark of zero per cent.

2.17   The above applies to a student's first attempt at the assessment. If work submitted as a reassessment of a previously failed assessment task is submitted later than the deadline the work will immediately be given a mark of zero per cent.

2.18   If an assessment which is marked as pass/fail rather than given a percentage mark is submitted later than the deadline, the work will immediately be marked as a fail.

Reassessment of failure

2.19   Should a student fail a module, they may only be reassessed in the failed assessment components. Students may not be reassessed in assessment components or modules which have already been passed.

2.20   Students will have two reassessment opportunities in each module, to retrieve one or more failed assessment components. One of these opportunities may be via in-year reassessment; however, in-year reassessment may not be available on all programmes due to different programme structures.

2.21   Students will be automatically registered to take reassessments at the first opportunity provided. This will include reassessments in undergraduate modules for which a student has a mark between 30 and 39 per cent. If a student is unable to take their reassessment, a deferral must be requested. If a student does not submit a reassessment when expected, the student will be recorded as having failed the reassessment.

2.22   Students who fail their first reassessment will be granted one further reassessment attempt in each module, to be taken at the next opportunity. This will either be by reassessment without attendance or reassessment with mandatory attendance, depending on the volume of credits failed.

2.23   Where a student passes a module following in-year reassessment, or following end-of-year reassessment, the module mark will be capped at 40 per cent.

2.24   Where a student is studying individual modules and is not enrolled on a programme, they may be reassessed twice in each module.

2.25   Where a student is studying a zero-credit academic module, whether as an individual module or as part of a programme, they may be reassessed twice in each zero-credit module.

2.26   Where a student has been assessed more than once in the same module but has still failed it, the highest mark achieved will be shown on the student's record.

2.27   On undergraduate programmes students awarded compensation are not required to be reassessed in the compensated module unless there is a Professional, Statutory or Regulatory Body (PSRB) requirement to pass the module. If a student wants to try to

improve their module result to a pass, they can choose to do so if they meet all of the following requirements:

- Have reassessment opportunities available

- Have no failed modules with marks below 30 per cent

- Have no outstanding deferrals in modules

- Are not at their intended point of graduation

2.28   Where a student has opted to take reassessment in a compensated module, but has failed the reassessment, the best overall module mark will be calculated and used.

Reassessment with mandatory attendance

2.29   Students may choose to re-study a failed module with attendance prior to submitting reassessments.

2.30   A reassessment with attendance counts as one of the two available reassessment opportunities.

2.31   Students who have failed more than 60 credits of a level of study at the point of the reassessment board (normally September) will not be able to progress to the next level of study. Students in this situation will be required to undertake reassessment in the module(s) with attendance.

2.32   Student Route (including Tier 4) students sponsored by the university may not choose to re-study a failed module. They will only be eligible to undertake reassessment with attendance where it is academically necessary as defined in regulation 2.31 and can be undertaken in line with Home Office Student Route regulations.

2.33   When being reassessed in a failed module with attendance a student must pay the appropriate module fee.

Exit awards

2.34   Where a student has used all their reassessment opportunities but is still unable to progress or achieve their award their registration with the university will be ended. The student will be provided with a record of any modules passed and an exit award if eligible. If a student in this position is on an apprenticeship programme they will be required to withdraw from the apprenticeship.

Substitution of failed modules

2.35   A student who has failed a module, and who has assessment opportunities remaining, may exceptionally substitute a different module to replace the failed module. This regulation should be used when the programme leader feels it would be in the best interests of the student to study a different module from the one failed or when the original module is no longer available. The approval of the programme leader and the faculty's Associate Dean (Academic) or nominee is required. The decision of the Associate Dean (Academic) or nominee is final.

2.36   This means that the student will take a year out from their programme to study the substitute module with attendance and take the module assessments, subject to the following:

- That if the failed module is a must-pass or must-take within the student's programme, a substitute module can only be used if the content is sufficiently similar that it

contributes appropriately to the programme's outcomes as defined in the programme specification

- That the substitute module is of the same credit value and level as the failed module

- The substitute module's suitability and availability within the student's programme

- That timetable and resource constraints don't prevent the student from studying the module

- That the student pays the module fees

- That the student enrols on the substitute module at the next available opportunity

2.37   In taking a substitute module:

- The student will be using up a reassessment opportunity

- All assessment components will be capped at the pass mark

- If the student fails the substitute module, it may only be reassessed if the student has reassessment opportunities remaining

Reassessment in modules which have changed or been withdrawn

2.38   Where a module has been withdrawn from the programme, a maximum of three occasions to take the reassessment will be made available, subject to the number of reassessment opportunities the student has available. Students should be aware that modules change over time. If the first reassessment opportunity is not taken, changes may be made which impact on the module's assessment tasks.

2.39   If a student is unable to take the reassessment within the limits outlined above, a replacement module may be studied. This will be subject to the regulations for substitution of failed modules.

Confirmation of module results

2.40   While coursework assessment marks and feedback will be provided to students in accordance with the Assessment and Feedback Policy, the marks are provisional until ratified by the assessment board.

Use of proof-readers

2.41   All work submitted for assessment must be the student's own work. However, a student may have assistance with proof-reading.

2.42   A proof-reader ensures that the meaning of the assessment is not misrepresented because of the quality and standard of the English used.

2.43   A proof-reader may only correct spelling, grammar and punctuation.

2.44   A proof-reader must not:

- Change the text to clarify or develop an argument

- Significantly alter the length of the assessment

- Assist with academic referencing

- Correct factual information

- Translate the work into English

2.45   A statement must be included with the assessment confirming that a proof-reader was used. A copy of the original unedited assessment must be available on request.

Section 3

Progression

Progression means allowing a student to move from one academic level to the next or from one stage of a programme to the next. We consider how many modules (credits) a student has passed and whether they have failed any modules.

We have progression regulations to make sure that students have the knowledge and skills from passing previous modules to prepare them for a more challenging level of study. We also have these regulations to make sure that students don't have a significant additional challenge in repeating failed assessments alongside studying new modules.

Where do I go for more information?

A glossary is available should you need an explanation of the terminology used within this document.

Need help?

For advice and guidance about progression, please contact your programme leader or Student Advice Centre.

Some programmes may have different requirements from those outlined in this section. Please refer to the programme-specific regulations for details.

Progression between undergraduate levels of study

3.1   Students may progress if they have passed 120 credits. Students may also progress if they have passed a minimum of 90 credits and are awarded compensation in up to 30 credits for module marks between 30-39 per cent.

3.2   Students may not progress into level 6 if they have a level 4 failure to retrieve.

3.3   Students who have achieved a minimum of 90 credits with a module mark below 30 per cent or who have passed fewer than 90 credits must successfully undertake reassessment before being able to progress. The method of reassessment will be as determined in Section 2.

3.4   Students who have not achieved 30 credits by the reassessment board (normally September) and who do not have deferrals will be dismissed from their studies. An exit award will be made if applicable. This regulation applies to students at a progression point between levels of study, but not to students in their final level of study.

3.5   The university may exceptionally allow students with deferred (delayed) assessments in up 30 credits, which they have not yet taken, to progress between levels.

Progression of part-time undergraduate students in year

3.6   Part-time students must have passed at least 30 credits within an academic year to progress to the next academic year. Part-time students may take level 4 and 5 modules or level 5 and 6 modules within the same academic year. The normal progression between undergraduate levels of study regulations apply to part-time students.

Progression to and from an undergraduate sandwich placement

3.7 Students must have passed 120 level 4 credits and a minimum of 90 credits at level 5 to proceed to a placement year. Where a student has undertaken a sandwich placement, the normal regulations for progressing into level 6 apply. A student may not use credit gained from the placement module as a substitute for failed level 5 module(s) in order to progress.

Progression to a non-honours award

3.8 Students on an honours degree programme who are unable to progress to level 6 after using up their reassessment opportunities may be eligible to progress to a non-honours award. Students must have passed at least 60 credits at level 5 to progress to a non-honours award.

Section 4

Awards

When students have accumulated sufficient credits, they become eligible to be given an award of the university. Credits are awarded by passing modules or to compensate for a marginal fail. Some awards are classified. This means that rather than just confirming that a student has passed, students can be given recognition for the marks they've achieved, either through the honours degree classification system or via the award of merit or distinction.

Where do I go for more information?

More information can be found in the Assessment and Feedback Policy. The policy also includes undergraduate and postgraduate mark descriptors which describe what a student must achieve to receive a mark in a particular mark range. Visit: dmu.ac.uk/assessment.

A glossary is available should you need an explanation of the terminology used within this document.

Need help?

For advice and guidance about awards, please contact your programme leader or Student Advice Centre.

Some programmes may have different requirements from those outlined in this section. Please refer to the programme-specific regulations for details.

Credit-based academic awards

4.1   The majority of students studying at the university will be enrolled on a programme which will lead to an academic award.

4.2   The most common awards of the university are outlined below. To gain an award a student must obtain a certain number of academic credits. The number of credits required and any additional criteria for gaining each award type are detailed below.

4.3   Credits are awarded either by passing a module or by being compensated for a marginal fail (undergraduate programmes only).

4.4   Academic credits are defined at different levels, indicating the challenge of study and the skills and knowledge which a student will need to show to be successful at that level. Higher education levels of study are nationally defined in the Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies (FHEQ).

Re-use of credit

4.5   Credits for a completed award cannot normally be used to count towards a second award of the same type eg honours degree in a similar subject to the first award. For example, a student who has gained a BSc (Hons) in pre-registration nursing who goes on to study post-registration nursing at honours degree level will be awarded a graduate diploma on the accumulation of 120 level 6 credits.

Minimum credits required for awards

4.6   The minimum credits needed to gain an undergraduate university award are outlined in the table below:

Award	Level 4	Level 5	Level 6	Level 7	Total
					Credits
Integrated master's degree with 30 credit sandwich placement	120	150	120	120	**510**
Integrated master's degree	120	120	120	120	**480**
Honours degree with 30 credit sandwich placement	120	150	120		**390**
Honours degree	120	120	120		**360**
Graduate diploma (GradDip)			120		**120**
Non-honours degree	120	120*	60*		**300**
Graduate certificate (GradCert)			60		**60**
Foundation degree (Fd)	120	120			**240**
Diploma of higher education (DipHE)	120	120			**240**
Higher National Diploma (HND)	120	120			**240**
Higher National Certificate (HNC)	120				**120**
Certificate of higher education (CertHE)	120				**120**
University Certificate of Professional Development (UCPD)	60 credits at levels 4, 5 or 6				**60**

* the total number of credits at level 5 and level 6 may vary for a non-honour's degree as long as a minimum of 60 credits are achieved at level 6; for example, a student may achieve 60 credits at level 5 and 120 credits at level 6.

Classification of awards

4.7   The table shows the classification bands for the university's awards. The following regulations show how the classification of each individual award is calculated. Examples of degree classification for each award are available.

Classification band	Integrated master's Honours degree	Foundation degree HNC/HND UCPD
70% and above	First class honours	Distinction
60-69%	Upper second (2:1)	Merit
50-59%	Lower second (2:2)	Pass
40-49%	Third class honours	Pass
Below 40%	Fail	Fail

Classification of awards for students with Recognition of Prior Learning (RPL)

4.8   Where a student has been granted exemption from studying one or more modules via the Recognition of Prior Learning (RPL) process the method of degree classification is outlined in the RPL section of the regulations.

Eligibility criteria for undergraduate awards

4.9   The university will make an undergraduate award if a student has met all of the following criteria:

- Gained the minimum number of credits needed for that award, as outlined in the credit table. This may include a proportion of passed and compensated credits at each level, as detailed in the compensation table. The requirements for each award are provided below.

- Achieved an average mark of at least:

  - 40 per cent across the modules studied at the level of the award for all undergraduate awards

  - 50 per cent across the modules studied at level 7 for integrated master's degrees.

Methods for calculating undergraduate award classifications

Please see the example undergraduate award outcome calculations for a full step-by-step breakdown of how the method for calculating undergraduate award classifications is applied in practice.

4.10   The methods for calculating the classification of undergraduate awards are based upon the classification table. The outcome of this classification calculation is called the average for classification and will determine which classification band a student will be awarded, in conjunction with the consideration band if applicable. Where 'best' credits are referred to, this means module credits with the highest marks.

4.11   The classification outcome is rounded to a whole number; 0.49 and below will be rounded down and 0.50 and above will be rounded up.

Consideration band for integrated master's and honours degrees

4.12   A consideration band is applied in integrated master's and honours degrees, including honours degrees with sandwich placement, where a student's average for classification is within two per cent of the next classification band, as follows:

Classification	Classification band	Consideration band
First class honours	70% and above	68-69%
Upper second (2:1)	60-69%	58-59%
Lower second (2:2)	50-59%	48-49%

4.13   If a student achieves an average for classification no more than two per cent below the next classification band, two tests are applied to decide whether the student will be awarded a degree in the higher band. The assessment board will award a degree in the higher classification band if the:

- Student achieves an overall percentage in the higher classification band across the 120 credits at level 6 (honours degree) or level 7 (integrated master's), **or if:**

- Module marks in at least half of the level 6 credits (honours degree) or level 7 (integrated master's) are in the higher classification band.

4.14 There is no consideration band between fail and third class honours. This means that an average for classification of 39 per cent or below is a fail. There is no 'consideration' to increase this to a third class honours.

Integrated master's degree with 30 credit sandwich placement (MDes, MPhys etc)

See example integrated master's degree with sandwich placement classification calculation

4.15 A student will be awarded an **integrated master's degree with 30 credit sandwich placement** if they have:

- Gained 510 credits, passing a minimum of:
  - 90 credits with a maximum of 30 credits of compensation at levels 4 and 6
  - 120 credits with a maximum of 30 credits of compensation at level 5
  - 120 level 7 credits **and**:
- Achieved an average mark of at least 50 per cent across the level 7 modules studied.

4.16 Classification of the integrated master's degree with 30 credit sandwich placement is based on the:

- Best 240 credits of the 270 studied at levels 5 and 6, single-weighted **and the**
- Best 105 credits of the 120 studied at level 7, triple-weighted.

Integrated master's degree (MDes, MPhys etc)

See example integrated master's degree classification calculation

4.17 A student will be awarded an **integrated master's degree** if they have:

- Gained 480 credits, passing a minimum of:
  - 90 credits with a maximum of 30 credits of compensation at levels 4, 5 and 6
  - 120 level 7 credits **and**:
- Achieved an average mark of at least 50 per cent across the level 7 modules studied.

4.18 Classification of the integrated master's degree is based on the:

- Best 225 credits of the 240 studied at levels 5 and 6, single-weighted, **and the:**
- Best 105 credits of the 120 studied at level 7, triple-weighted.

4.19 If the outcome of the above classification calculation is within two per cent of the next classification band, then the consideration band rules will be applied.

Honours degree with 30 credit sandwich placement

See example honours degree with 30 credit sandwich placement classification calculation

4.20 A student will be awarded an **honours degree with 30 credit sandwich placement** if they have:

- Gained 390 credits, passing a minimum of:
  - 90 credits with a maximum of 30 credits of compensation at levels 4 and 6,
  - 120 credits with a maximum of 30 credits of compensation at level 5, **and:**

- Achieved an average mark of at least 40 per cent across the level 6 modules studied.

4.21   Classification of the honours degree with sandwich placement is based on the:

- Best 120 credits of the 150 studied at level 5, single-weighted, **and the:**
- Best 105 credits of the 120 studied at level 6, triple-weighted.

4.22   If the outcome of the above classification calculation is within two per cent of the next classification band, then the consideration band rules will be applied.

Honours degree (BA/BSc/LLB)

See example honours degree classification calculation

4.23   A student will be awarded an **honours degree** if they have:

- Gained 360 credits, passing a minimum of 90 credits with a maximum of 30 credits of compensation per level, **and:**
- Achieved an average mark of at least 40 per cent across the level 6 modules studied.

4.24   Classification of the honours degree is based on the:

- Best 105 credits of the 120 studied at level 5, single-weighted, **and the:**
- Best 105 credits of the 120 studied at level 6, triple-weighted.

4.25   If the outcome of the above classification calculation is within two per cent of the next classification band, then the consideration band rules will be applied.

Non-honours (ordinary) degree

4.26   A student will be awarded a **non-honours (ordinary) degree** if they have:

- Gained 300 credits including a minimum of 60 credits at level 6, passing a minimum of:
    - 90 credits with a maximum of 30 credits of compensation at level 4
    - 150 credits at levels 5 and 6 with a maximum of 30 credits of compensation at either level 5 or level 6. Compensation cannot constitute any more than 25 per cent of the credits passed at either level 5 or 6, and:
- Achieved an average mark of at least 40 per cent across the level 6 modules contributing to the final award.

Non-honours degrees are not classified.

4.27   Where a non-honours degree is awarded as an exit award, passed modules may need to be traded down in order to reach the minimum number of credits required at each level for the award.

Graduate diploma (GradDip)

4.28   A student will be awarded a **graduate diploma** if they have:

- Gained 120 level 6 credits, passing a minimum of 90 credits with a maximum of 30 credits of compensation, and:
- Achieved an average mark of at least 40 per cent across the modules studied.

Graduate certificate (GradCert)

4.29   A student will be awarded a **graduate certificate** if they have:

- Gained 60 level 6 credits and:

- Achieved an average mark of at least 40 per cent across the modules studied.

Foundation degree (FdA, FdSc) and Higher National Diploma (HND)

See example foundation degree/HND classification calculation

4.30   Subject to gaining 240 credits, passing a minimum of 90 credits with a maximum of 30 credits of compensation per level, a student will be awarded a:

- **Foundation degree/HND** with **distinction** if they have an average of 70 per cent or above across the 120 level 5 credits studied.

- **Foundation degree/HND** with **merit** if they have an average of 60-69 per cent across the 120 level 5 credits studied.

- **Foundation degree/HND pass** if they have an average mark of at least 40 per cent across the 120 level 5 credits studied, but the requirements for distinction or merit are not met.

Diploma of higher education (DipHE)

4.31   A student will be awarded a **diploma of higher education** if they have:

- Gained 240 credits, passing a minimum of 90 credits with a maximum of 30 credits of compensation per level, **and**:

- Achieved an average mark of at least 40 per cent across the 120 level 5 credits studied.

Higher National Certificate (HNC)

See example HNC classification calculation

4.32   Subject to gaining 120 credits, passing a minimum of 90 credits with a maximum of 30 credits of compensation, a student will be awarded a:

- **HNC** with **distinction** if they have an average of 70 per cent or above across the 120 credits studied.

- **HNC** with **merit** if they have an average of 60-69 per cent across the 120 credits studied.

- **HNC pass** if they have an average mark of at least 40 per cent across the modules studied, but the requirements for distinction or merit are not met.

Certificate of higher education (CertHE)

4.33   A student will be awarded a **certificate of higher education** if they have:

- Gained 120 credits, passing a minimum of 90 credits with a maximum of 30 credits of compensation, **and**:

- Achieved an average mark of at least 40 per cent across the 120 credits studied.

University Certificate of Professional Development (UCPD)

See example UCPD classification calculation

4.34   Subject to gaining 60 credits, a student will be awarded a:

- **UCPD** with **distinction** if the overall average mark of the modules studied is 70 per cent or above.

- **UCPD** with **merit** if the overall average mark of the modules studied is 60-69 per cent.

- **UCPD pass** if they have an average mark of at least 40 per cent across the 60 credits studied, but the requirements for distinction or merit are not met.

Exit awards

4.35   Sometimes a student is unable to achieve their intended award due to running out of reassessment opportunities or reaching the maximum period of registration for the programme. In such cases the university will make an exit award, if possible, based on the credits the student has achieved. The exit awards available are outlined in the table below:

Award	Exit awards
Integrated master's degree with year placement	Integrated master's degree
Integrated master's degree	Honours degree Non-honours degree Diploma of higher education Certificate of higher education
Honours degree with year placement	Honours degree
Honours degree	Non-honours degree Diploma of higher education Certificate of higher education
Graduate diploma (GradDip)	Graduate certificate
Non-honours degree	Diploma of higher education Certificate of higher education
Graduate certificate (GradCert)	None
Foundation degree (Fd)	Certificate of higher education
Diploma of higher education (DipHE)	Certificate of higher education
Higher National Diploma (HND)	Certificate of higher education
Higher National Certificate (HNC)	None
Certificate of higher education (CertHE)	None
University Certificate of Professional Development (UCPD)	None

4.36   In making an exit award passed modules at higher levels of study may be traded down to offset module failure at lower levels, in order to reach the minimum number of credits required at each level for the award. Where credits are traded down from a higher level, the normal rules about compensation for failure apply.

4.37   A student may leave the university without having gained enough credits to be given an award. In such cases the student will be provided with a formal record of any credits they have achieved.

Aegrotat awards

4.38   In extreme extenuating circumstances there may be no prospect of a student completing their studies in the foreseeable future. In such cases an aegrotat award may be made.

4.39   Aegrotat awards may be made at any level of study as appropriate, but are not classified. They are made based on the availability of evidence of work being successfully undertaken at the level of the award, indicating that the student would have achieved the award if the extenuating circumstances did not occur.

4.40   Aegrotat awards are unlikely to be acceptable to a professional body to convey licence to practice.

4.41   Before an aegrotat award is made consultation will take place with the student, if appropriate, or next-of-kin if the student is deceased or unable to decide. The student or next-of-kin will be asked to decide whether to accept the aegrotat award. If a student does not accept the aegrotat award they may undertake the required assessments to gain the award or may leave the university with an exit award.

4.42   A student who accepts an aegrotat award may apply to return to the university via the Recognition of Prior Learning (RPL) process to complete their intended award. On achieving the intended award, the aegrotat certificate must be returned to the university.

Section 5

Deadline extensions, deferrals and leave of absence

Sometimes students are unable to meet assessment deadlines due to unforeseen circumstances, or have significant personal or medical issues which mean that they would benefit from some time away from their studies. New students may also experience initial difficulties settling in to university life.

The university offers several options for students in such situations, which are outlined in this section. Decisions on students' options should be taken in discussion with the relevant academic staff and requests for deferrals or interruptions will require supporting evidence.

Where do I go for more information?

General regulations and procedures affecting students: dmu.ac.uk/student-regulations.

A glossary is available should you need an explanation of the terminology used within this document.

Need help?

For advice and guidance about extensions, deferrals or leave of absence, please contact your module or programme leader, Student Advice Centre or personal tutor.

Some programmes may have different requirements from those outlined in this section. Please refer to the programme-specific regulations for details.

Extending assessment deadlines

5.1   Students may request an extension to an assessment deadline using the extension to coursework application form. The request should be made to the module leader in advance of the deadline. The module leader has the discretion to grant an extension of up to five university working days. Guidance on granting extensions and supporting evidence can be found in Appendix 3.

5.2   If a deadline extension is approved the module leader will sign the completed extension form and confirm the revised deadline date. The student should submit this form with the assessment.

Deferring assessments

5.3   Students may request a deferral (delay) in submitting assessments or sitting formal examinations. This means that a student can take the assessment at a later date than scheduled without it having an effect on reassessment opportunities. It is treated as a first attempt and the module component mark is not capped. Normally, students will be automatically registered to take deferred assessments at the first opportunity provided.

5.4   A deferral should only be requested if a student's performance in assessment(s) is likely to be seriously affected by personal or medical circumstances and should be supported by evidence. Periods of suspension, debt hold or debt exclusion will not be accepted as valid reasons for seeking a deferral. Deferral requests are made on the appropriate

deferral form available from the Student Advice Centre and considered by a faculty or university panel.

5.5   Chapter 5 of the general regulations and procedures affecting students outlines the deferral process and the evidence required to support a deferral application.

Leave of absence

5.6   Students who are experiencing significant personal or medical issues may wish to consider requesting a leave of absence. This request should be made on the leave of absence agreement form to the faculty Associate Dean (Academic) or nominee and supported by third party documentary evidence.

5.7   Leave of absence is different from requesting an extension to a deadline or a deferral because it is a longer-term measure which is not meant to resolve a specific issue about one or more assessments. It relates to a student's status; during a period of leave of absence a student will not attend the university or take assessments. However, students on leave of absence may access their online learning space.

5.8   Students going on maternity leave may with the agreement of the faculty Associate Dean (Academic) or nominee, maintain some engagement with their studies. The DMU policy and procedure for student pregnancy, maternity, secondary carer (paternity) and adoption leave provides further information.

5.9   A leave of absence of no more than one year may be granted in the first instance, which will be included within a student's maximum period of registration. A shorter leave of absence than a year may be agreed to suit a student's circumstances and if a suitable point to return to study is identified.

5.10   The timing and conditions of a student's return from a leave of absence will be provisionally agreed when the leave of absence is approved and recorded on a leave of absence agreement form.

5.11   A student returning from a leave of absence will be subject to the regulations which apply to the student cohort they are joining.

5.12   All module marks achieved up to the point of the leave of absence will be carried forward on a student's return.

5.13   For apprenticeship programmes, a leave of absence is the equivalent of an apprenticeship break in learning. If an apprentice is required to take a break in learning they will also be considered to be on a leave of absence. A combined leave of absence and break in learning agreement form should be completed. **APP**

5.14   A student may request to take a gap year from their studies by using the leave of absence form. Evidence will not be required to support such a request. A gap year of no more than one year may be granted, normally on successful completion of a student's current academic level of study. The gap year will be included within a student's maximum period of registration. Gap years are not permitted on apprenticeship programmes. **APP**

Section 6

Registration

This section provides an overview of student registration and how to change programmes and/or modules. It also covers how to withdraw from studies at the university and how to return following student withdrawal or ending of registration by the university.

Where do I go for more information?

A glossary is available should you need an explanation of the terminology used within this document.

Need help?

For advice and guidance about your registration, please contact your module or programme leader or Student Advice Centre.

Some programmes may have different requirements from those outlined in this section. Please refer to the programme-specific regulations for details.

Student registration

6.1 Students register on a programme which leads to an award eg BA (Hons) English.

6.2 Students must register at the latest by the end of week two of teaching.

Students enrolled on the 30credit undergraduate sandwich placement module

6.3 Students enrolled on the 30-credit undergraduate sandwich placement module may start the placement up to two weeks after the formal start date.

6.4 Exceptionally, subject to the approval of the Associate Dean (Academic) or nominee, a student enrolled on the 30-credit undergraduate sandwich placement module may withdraw from the module and enter level 6 by week two of teaching.

Maximum periods of registration

6.5 Each award of the university has a maximum period of registration. This is not the normal time it would take a student to complete their programme and gain an award, but the maximum time allowed. The maximum period of registration for each award is given in the table below:

Award	Full-time	Part-time
Integrated master's degree with year placement	8 years	10 years
Integrated master's degree	7 years	9 years
Honours degree with year placement	7 years	9 years
Honours degree	6 years	8 years
Graduate diploma (GradDip)	2 years	3 years

Award	Full-time	Part-time
Non-honours degree	5 years	7 years
Graduate certificate (GradCert)	1 year	2 years
Foundation degree (Fd)	4 years	6 years
Diploma of higher education (DipHE)	4 years	6 years
Higher National Diploma (HND)	4 years	6 years
Higher National Certificate (HNC)	2 years	3 years
Certificate of higher education (CertHE)	2 years	3 years
University Certificate of Professional Development (UCPD)	3 years	3 years
Individual modules for continuing professional development purposes	2 years	2 years

6.6   Maximum periods of registration include any deferrals, leave of absence or periods of exclusion due to non-payment of debt.

6.7   The regulations are applied pro rata for students who transfer between full-time and part-time study and for students who are awarded credits for prior achievement. They are also applied pro rata where students pass an initial award and move on to a related award.

6.8   If a student reaches the maximum period of registration without gaining an award, their registration with the university will be ended. The student will be provided with a record of any modules passed and an exit award if eligible.

Changing programmes

6.9   A student may request to change their programme by the end of week two of teaching. A module change in block 3 may also result in a programme change, for example withdrawal from a 'with Languages' pathway.

6.10   At the end of a level of study an undergraduate student may request a transfer to another programme once they have received their ratified assessment results. This will only be considered if the request is academically appropriate and the student's ratified results would allow progression to the next level of study on their original programme.

6.11   If a student decides mid-year that they wish to transfer programmes, they must take a leave of absence and join the new programme at the start of the next academic session.

6.12   All programme changes require approval of the receiving programme leader.

6.13   Students on apprenticeship programmes may not change their programme as outlined in this regulation.

Changing modules

6.14   A student may request to change modules, up to a maximum of 30 credits, by the end of the second week of a module block, with the approval of the programme leader. Students on non-block programmes may request to change modules by the end of week two of teaching.

6.15 If a student is on an apprenticeship programme the new module must map to the relevant apprenticeship standard. A student on an apprenticeship programme may not change modules.

Withdrawing from a module

6.16 A student may withdraw from a module up to the end of week two of teaching without the penalty of failing the module. Students wishing to withdraw from a module are advised to seek guidance to ensure they can achieve sufficient credits to gain their award.

Withdrawing from study

6.17 Students may withdraw from their studies at any time. A student considering withdrawal should seek advice on the academic and financial implications. It is the student's responsibility to inform the Associate Dean (Academic) or nominee and complete the relevant form. If a student wishes to return to the university at a later date they may apply for admission using the exit award.

6.18 In exceptional circumstances the university may refuse a student's application to withdraw from their studies pending the outcome of a disciplinary, fitness to practice or academic offence investigation.

Withdrawing from study on an apprenticeship programme

6.19 Apprentices may withdraw from their studies and are advised to seek guidance about the implications for their employment.

6.20 Apprentices who leave or are dismissed from their employment will be required to withdraw from their programme.

6.21 Apprentices who are made redundant will be given 12 weeks to find a new supportive employer to continue their training. If unemployed after 12 weeks they will be withdrawn from the programme. If they are made redundant within six months of the end day of their training (not End Point Assessment) they can complete the programme without finding a new employer.

6.22 Apprentices who leave, are dismissed or made redundant from their employment, may transfer to a standard university programme if appropriate and if they secure alternative funding.

Returning following withdrawal from study or following the achievement of an award

6.23 A student may apply to re-enter the university to achieve a first or higher award following their withdrawal from studies or having left after achieving an award; for example, a student may wish to return to study for an honours degree following the achievement of a diploma of higher education which was their intended award aim. A student should apply to return using the RPL process but would not be subject to the normal constraints on maximum volumes of RPL credits. Return would be at the discretion of the programme leader and/or admissions tutor.

6.24 Students' previous marks would be carried forward if registering on the same programme and they should return any previous certificates awarded by the university before the higher award is made. Students are not required to return the certificate where the original award gained is a recognised professional qualification.

Returning following academic failure

6.25 A student may apply to re-enter the university to achieve a first or higher award following the ending of their studies due to academic failure under the same process outlined above in terms of withdrawing from study. If returning to the same programme the above would apply with regards to students' previous module marks for credit achieved.

6.26 Students re-entering the university following academic failure are subject to a time delay before they can return unless exceptional circumstances can be shown.

6.27 For undergraduate programmes the time delay will be at least two calendar years from the point a student's original registration was ended. A student may apply to an academic partner institution, without a time delay, if an equivalent DMU-validated programme is available.

6.28 Students previously on an apprenticeship programme are not eligible to return as an apprentice but may apply for entry to a standard university programme.

Returning following registration ending due to fitness to practice

6.29 A student whose registration was ended due to fitness to practice will not be able to re-apply for entry to the university within two years and would not normally be admitted onto an accredited programme.

Expulsion from the university

6.30 A student who is expelled from the university will not be readmitted under any circumstances.

Section 7

Recognition of Prior Learning (RPL)

We have a Recognition of Prior Learning (RPL) process so the university can give academic credit for relevant learning which a student has undertaken before they arrive at De Montfort University (DMU). This can be learning which led to the award of academic credit from another university, or learning through work or other experience.

The RPL process helps us decide if a student has already met the learning outcomes of one or more modules on their programme. If they have, they won't need to study that module or modules.

Where do I go for more information?

Further information about RPL and an application form can be found here: dmu.ac.uk/scheme-regulations

A glossary is available should you need an explanation of the terminology used within this document.

Need help?

For advice and guidance about RPL, please contact your programme leader, admissions tutor, or Student Advice Centre.

Some programmes may have different requirements from those outlined in this section. Please refer to the programme-specific regulations for details.

What is Recognition of Prior Learning (RPL)?

7.1   RPL is where the university recognises academic credit or qualifications achieved at another institution which are equivalent to the learning outcomes of module(s) of a student's DMU programme. We can also consider previous formal learning which doesn't lead to the award of academic credit.

7.2   The university also recognises work-based or other experiential learning which is equivalent to the learning outcomes of module(s) of a student's DMU programme.

RPL process

7.3   The process of applying for exemption from studying module(s) is provided in the Guide to Recognition of Prior Learning. This includes an application form. The process is open to both applicants to the university and current students who may be part-way through their studies.

7.4   Applications must be made before beginning to study the module(s) the RPL request relates to.

7.5   The RPL process can only be used to grant exemption from studying whole modules, not parts of modules.

7.6   Students must gain a minimum volume of credit at the university in order to get a DMU award. These requirements are set out in the table below:

Award	DMU credit required	Maximum RPL credit
Integrated master's degree with year placement	120 level 6 credits 120 level 7 credits	120 level 4 credits 120 level 5 credits
Integrated master's degree	120 level 6 credits 120 level 7 credits	120 level 4 credits 120 level 5 credits
Honours degree with year placement	120 level 6 credits	120 level 4 credits 120 level 5 credits
Honours degree	120 level 6 credits	120 level 4 credits 120 level 5 credits
Graduate diploma (GradDip)	120 level 6 credits	None
Non-honours degree	60 level 6 credits	120 level 4 credits 120 level 5 credits
Graduate certificate (GradCert)	60 level 6 credits	None
Foundation degree (FdA/FdSc)	90 level 5 credits	120 level 4 credits 30 level 5 credits
Diploma of higher education (DipHE)	90 level 5 credits	120 level 4 credits 30 level 5 credits
Higher National Diploma (HND)	90 level 5 credits	120 level 4 credits 30 level 5 credits
Higher National Certificate (HNC)	60 level 4 credits	60 level 4 credits
Certificate of higher education (CertHE)	60 level 4 credits	60 level 4 credits
University Certificate of Professional Development (UCPD)	30 credits	30 credits

7.7   The maximum limit on credits achieved via RPL does not apply to previous DMU students returning to achieve an award on the same programme they were originally studying. The requirements outlining the return of previous DMU students can be found in the registration section.

Reassessment opportunities

7.8   Reassessment opportunities for students entering the university with RPL will be as outlined in Section 2 of these regulations.

Calculation of award for students entering with RPL

7.9   Calculation of award classification is based only on modules studied at the university.

7.10   For integrated master's degrees classification is calculated as follows:

RPL scenario	Classification calculation
Direct entrants into level 6	Classification is based on the best 105 credits at level 6, single-weighted, and the best 105 credits at level 7, triple-weighted
Direct entrants part-way through level 5	Classification is based on the average for all the level 5 modules studied and the best 105 credits at level 6, single-weighted and the best 105 credits at level 7, triple-weighted.
Direct entrants at the start of level 5	The normal classification rule applies

7.11   For undergraduate honours degrees classification is calculated as follows:

RPL scenario	Classification calculation
Direct entrants into level 6 who study more than 120 credits	Please refer to the programme-specific regulations
Direct entrants into level 6	Classification is based on the average of the module marks in the best 105 credits from the 120 studied
Direct entrants into level 6 who study fewer than 120 credits	Classification is based on the mark average for all modules studied
Direct entrants part-way through level 5	Classification is based on the average of the module marks in the best 105 credits from the 120 studied at level 6, triple-weighted, and the mark average for all the level 5 modules studied, single-weighted
Direct entrants at the start of level 5	The normal classification rule applies

7.12   For other undergraduate awards which are classified, the classification is based on the average of the marks for all modules studied at the level of the award. This means level 5 for foundation degrees and Higher National Diplomas (HNDs) and level 4 for Higher National Certificates (HNCs).

Maximum periods of registration

7.13   The maximum registration period for students entering the university with RPL will be in proportion to their study at the university, compared to the full programme of study. This information will be provided at initial registration with the university or as soon as possible thereafter.

7.14   Examples for full-time registrations are given in the table below:

RPL credits	DMU credits	Maximum period of registration
120 level 4 and 120 level 5 credits	120 level 6 credits	2 years
120 level 4 and 60 level 5 credits	60 level 5 credits and 120 level 6 credits	3 years

RPL credits	DMU credits	Maximum period of registration
120 level 4 credits	120 level 5 and 120 level 6 credits	4 years

Section 8

Studying abroad

Students may take the opportunity to study abroad for part of their programme and likewise students from overseas institutions may attend De Montfort University (DMU). Where such arrangements exist, there are regulations which govern how the credit earned at a different institution may be included in the student's programme.

Where do I go for more information?

A glossary is available should you need an explanation of the terminology used within this document.

Need help?

For advice and guidance about studying abroad, please contact your programme leader.

Some programmes may have different requirements from those outlined in this section. Please refer to the programme-specific regulations for details.

Studying in Europe: European Credit Transfer and Accumulation System (ECTS)

8.1   There is a recognised credit transfer system across Europe which is called the European Credit Transfer and Accumulation System (ECTS). This is used where DMU students undertake study at a European institution.

8.2   Where a student has been awarded credit via ECTS the credit gained will be converted to the equivalent UK higher education credit. One ECTS credit is equivalent to two UK higher education credits.

8.3   The credits awarded by the European institution will replace the credits which would otherwise have been obtained through study at DMU. These arrangements must be agreed between the university and the participating institution in advance of the student undertaking study abroad.

8.4   Students studying under the ECTS system will also receive grades for the modules successfully completed. The ECTS Users' Guide provides information on how to convert institutions' grading schemes into DMU marks

Studying at institutions which don't use the ECTS

8.5   Where a DMU student undertakes part of their studies at an institution which doesn't utilise ECTS, an agreement on the equivalence of credit and mark conversion should be put in place before the student studies abroad.

Student exchange year abroad

8.6   Students may, with the permission of their programme leader, study abroad for a full academic year as part of their degree. The year abroad will take place between level 5 and level 6 study. This will be recognised by adding 'with year abroad' to the degree certificate.

8.7   Students must have passed 120 level 4 credits and a minimum of 90 credits at level 5 to proceed to the student exchange year abroad. Where a student has undertaken the year abroad, the normal regulations for progressing into level 6 apply.

8.8   Students will study modules during their year abroad, as outlined on the learning agreement approved by the programme leader. The year abroad will receive an outcome of pass or fail and no module marks or credits will be brought back to DMU. There is no opportunity to repeat the year abroad and if it is not successfully completed it will not be recorded on a student's degree certificate or Higher Education Achievement Report (HEAR).

8.9   A student may withdraw from the year abroad up to the end of week two of teaching and may progress instead to level 6. A student who withdraws from the year abroad later than week two of teaching will be required to take a leave of absence.

8.10   Apprentices are not able to undertake a study abroad year or shorter period of study abroad due to the nature of apprenticeship programmes, their links to employment and the relevant apprenticeship standard.

Students from overseas institutions studying at DMU

8.11   Overseas students will be provided with a record of the modules they have passed while studying at the university.

8.12   Where students are returning to an institution which uses ECTS, the record provided to the student will include information about the conversion of the DMU credits and marks into ECTS credits and marks.

8.13   Where students are returning to an institution which does not use ECTS it is the responsibility of a student's home institution to undertake any conversion of credits and marks.

Glossary

Term	Definition
Academic offence	An academic offence is where a student commits any act which is intended to evade and undermine the university's processes for rigorous and fair assessment. Academic offences include plagiarism, cheating, collusion, copying work and reuse of your own work, among others.
Anonymous marking	Anonymous marking is where students' work is marked without the marker having access to the students' names. Some assessment tasks cannot be anonymously marked, for example performances, production of artefacts, major projects and dissertations.
Apprenticeship	Higher and degree apprenticeships provide an academic or professional programme to learners in the workplace to support them to develop knowledge, skills and behaviours to enhance their career. They are funded by the employer and/or the government and consist of 80% on-the-job training and 20% off-the-job training.
Assessment	Assessment is the way that students' learning and understanding is tested, and the way in which the university is assured that students have met the module learning outcomes. Each module has one or more assessment tasks, linked to one or more of the module's learning outcomes. Successful completion of module assessment tasks, as measured by a pass mark in the module, leads to the award of credit. For more information go to: dmu.ac.uk/assessment.
Assessment board	Assessment boards are convened to confirm students' module results (module assessment boards) and make decisions about progression, awards and degree classification outcomes (programme assessment boards)
Assessment tasks/methods	These are the types of assessments which are used to test students' knowledge and understanding. Examples include essay, examination, presentation, portfolio, and laboratory.

Assessment weightings	These define how much each module assessment task is 'worth' in the module. For example, a module's assessment weightings might be as follows:

Activity	Assessment weighting
Essay	30%
Group presentation	20%
Portfolio	50%

	The marks achieved for each assessment task would be weighted to calculate the overall module mark.
Associate Dean (Academic)	A senior academic member of staff who provides faculty-wide leadership in academic management, student support and enhancing the student experience.
Award	When students have accumulated sufficient credits, they become eligible to be given an award of the university eg BA (Hons) English. Some awards are classified. This means that rather than just confirming that a student has passed, students can be given recognition for the marks they've achieved, either through the honours degree classification system or via the award of merit or distinction.
Block teaching	Block teaching is a model of delivery where students take one module at a time before progressing onto the next. The standard module block is seven weeks during which all learning, teaching and assessment will take place.
Classification	Some awards are classified, which means that students' performance above the threshold standard to pass the award is recognised and rewarded. Common methods are the degree classification system (first class, upper second class etc) and the pass/merit/distinction model. An average mark for classification is determined according to set mathematical rules, and an award is made based on what classification band a student's average for classification falls within.
Compensation	Compensation is the award of credit in an undergraduate programme where a module has been marginally failed, but a student has passed all their other modules. Compensating credit is not awarded against the failed module, but against the level of study, up to a maximum of 30 credits. This allows a student to progress or gain their award without having to be reassessed in a marginal failure (30-39%).

	Compensation is not permitted in 'must pass' modules or in some programmes which are governed by a Professional, Statutory or Regulatory Body – these are defined in the programme-specific regulations.
Course	See glossary entry for programme.
Consideration band	The consideration band is a two per cent band used in the calculation of integrated master's and honours degrees. It provides additional scrutiny where a student's average for classification falls close to a degree classification band boundary. It is rules-based and uses a student's performance at the culmination of their studies (level 6, or level 7 for an integrated master's degree) to decide whether the student should be awarded a degree in the higher classification band.
Coursework	This is a generic term for assessment tasks which are not formal exams.
Credit	Credit is a way of quantifying student achievement in terms of the volume of study undertaken, and the level of challenge of the study. Credit is associated to modules which have both a credit value and level eg 30 credits at level 6. Credit is awarded to a student on successful completion of the module and can be accumulated to gain an award.

The levels of credit are defined by the Frameworks for Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies. Levels 4, 5 and 6 equate to an undergraduate study and level 7 denotes postgraduate study. At all levels, one credit equals ten notional learning hours (hours of study and assessment).

See glossary entry for FHEQ.

Compensating credit
Compensating credits are awarded at the level of study not in relation to particular modules (see compensation).

General credit
General credit is the total amount of credit a student may be awarded through RPL. General credit may have no validity for the purpose of transferring to another programme.

Specific credit
Specific credit for a module is awarded for a pass mark (40%) or above). Specific credit is also the amount of credit which is recognised when a student is admitted by RPL to a particular programme.

See glossary entry for RPL. |

Deferral	Deferral of assessment occurs when a student has permission from the university to take an assessment at a later date than scheduled, without it having an effect on his or her re-sit opportunities. This will be when the assessment is next normally offered, or, in the case of coursework or assignments, as determined by the relevant panel.
End Point Assessment (EPA)	End Point Assessment is an independent assessment of the knowledge, skills and behaviours which have been learned throughout an apprenticeship, and tests the apprentice's ability to apply them in the workplace. EPA may be incorporated into the credit forming the academic award, or may be separate, depending on the requirements of the relevant apprenticeship assessment plan.
European Credit Transfer and Accumulation System (ECTS)	A system of credit accumulation based on students' workloads and achievement of learning outcomes, with the aim of gaining an academic award. ECTS facilitates the transfer of credits which students earn abroad during their studies into credits which can be counted towards their degree. One ECTS credit is the equivalent of two DMU credits. For more information go to: ec.europa.eu/education/ects/users-guide/docs/ects-users-guide_en.pdf
Exam	An exam is a time-limited assessment usually occurring at the end of the module. Exams can be seen, where the student is provided with the question(s) in advance, or unseen.
Exit award	An award which is made if a student is unable, for academic or personal reasons, to achieve their intended award. The exit award is made based on the number of credits a student has passed at specific levels of study.
Extension to a deadline	An extension to an assessment deadline of no more than five university working days can be granted to a student on production of evidence supporting their need to have more time to complete the assessment.
External examiner	External examiners are subject experts appointed from other universities or from industry to review the assessment process and students' work. They ensure that the university's awards are comparable in standard to awards granted by other institutions and confirm that they comply with national threshold standards and that the assessment of students is fair.
Feedback	Feedback is provided to students either verbally or in writing on the assessments they have submitted. Feedback is intended to explain the mark which the student has achieved and to highlight strengths and areas for improvement.

	For more information go to: dmu.ac.uk/assessment.
Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies (FHEQ)	A nationally-adopted framework which provides the key reference point for academic standards in UK higher education. The FHEQ outlines the general achievement required to gain a qualification by the provision of level descriptors for each of the higher education levels of study. The descriptors demonstrate the extent of the academic challenge required at each level of study. For more information go to: qaa.ac.uk
Gap year	A gap year is where a student takes a break from their studies at the end of an academic session to pursue other interests
In-year reassessment	In-year reassessment is a reassessment taken during the course of the academic year, rather than at the end of the academic year in the summer reassessment period
Leave of absence	A leave of absence is where a student takes a break from their studies of no more than a year in the first instance, due to significant personal or medical difficulties. A leave of absence is supported by evidence provided by the student.
Mark descriptors	Mark descriptors are criteria which explain the requirements a student should meet in their assessed work in order to achieve a mark in a particular band eg 50-59%, 60-69%. Mark descriptors can be contextualised to make them more relevant to a specific academic subject.
Module	A standalone learning package with defined content, learning outcomes and one or more assessment tasks. Each module is set at the appropriate level of the Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies (FHEQs). See glossary entry for FHEQ. Must-take module A module which a student must take within their programme. Must take modules are eligible for compensation. Must-pass module A module which a student does not necessarily have to take within their programme. However, if a student chooses to take a module of this type, it must then be passed. Compensation is not allowed. Optional module A module which may be taken by a student within their programme. However, the student is not obliged to take or pass the module. Optional modules are eligible for compensation. Pre-requisite module A pre-requisite module must be successfully completed before a

	student may begin to study another specified module within a programme.
Module leader	Each module has a module leader. Module leaders are responsible for the academic leadership, management and assessment for their module(s).
Module learning outcomes	Module learning outcomes define the things which students should be able to do on successful completion of the module – for example the application of specific skills and knowledge. They are linked to the module assessment tasks which test students' ability to meet the learning outcomes.
Module specification	A document which provides various information about a module, including its title, level and credit size, outline content, learning outcomes and assessment tasks.
Levels	Levels of study are defined using outcomes which reflect the amount of intellectual challenge required in order to be successful at that level. Levels can be seen as a series of sequential stages with level 4 equating to the first year of an undergraduate programme, through to level 7 being taught postgraduate study. The levels are outlined in the Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies (FHEQs). See glossary entry for FHEQ.
Personal tutor	A student's personal tutor is an academic member of staff who is a key point of contact and support. Personal tutors provide guidance on academic and professional issues and can signpost other university services for support with personal issues.
Programme	A programme is a collection of modules at defined levels of study which form a coherent learning experience. Successful completion of a programme leads to the conferment of an award, eg BA (Hons) English, MSc Computing. Programmes may also be called courses.
Programme leader	Each programme has a programme leader. Programme leaders are responsible for the academic leadership, management and assessment for their programme.
Programme specification	A document which provides various information about a programme, including its title, award and exit awards, characteristics and intended outcomes, plus details of the modules which are taught within the programme.

Progression	Progression means allowing a student to move from one academic level to the next or from one stage of a programme to the next. Progression decisions are based on how many modules a student has passed and whether they have failed any modules.
Reassessment	When a student fails one or more assessment components within a module they will be required to take reassessment in the failed component(s) in order to achieve an overall pass mark for the module. Following reassessment, the module mark result is capped at the pass mark.
Reassessment with mandatory attendance	Reassessment with mandatory attendance is where students have significant volumes of failure and are not able to progress to the next level of their studies. They are therefore required to re-study the modules including attending all timetabled teaching activities before taking the reassessments.
Recognition of Prior Learning (RPL)	Recognition of Prior Learning (RPL) is a process which can be used to determine whether a student may be exempt from studying one or more modules on their DMU programme because of equivalent previous learning or experience. Previous learning may have been recognised by the award of academic credit of qualifications, but could also be formal learning which doesn't lead to the award of academic credit.
Sandwich placement	A sandwich placement is a year of work experience, taking place between levels 5 and 6 of an undergraduate programme (years 2 and 3 for full-time students). The sandwich placement is a credit-weighted module, worth 30 credits at level 5, and students undertake a work-related assessment in order to achieve the credit.
Student Advice Centre (SAC)	Each faculty has a Student Advice Centre (SAC) run by faculty professional services staff. SACs support and advise students on all learning support and non-academic enquiries.
Subject	An academic area of study, for example, a recognised discipline such as politics, or a professional area of study such as nursing.

Appendix 1: Module assessment board (MAB) terms of reference

Establishment

Module assessment boards (MABs) are established by and within faculties, subject to the approval of the progression and award board (PAB). The parent PAB has the formal status of standing committees of the FAC and are subject to such standing orders as are determined by the Academic Board. It is the responsibility of each PAB annually to approve the membership for all MABs that sit underneath it, and to determine that each is properly constituted. The name of the MAB will be determined by the module grouping(s) associated with the board, for example fine art MAB.

The MAB has the responsibility for confirming marks and reviewing student performance at module level.

Terms of reference

Working within university rules, regulations and protocols, each MAB is responsible for:

- Arrangements and processes for module assessment and moderation, including draft examination papers, coursework assignments, project briefs, work experience programmes (where intrinsic to studies), schedules for submission of assessed work etc.
- The assessment of modules for which the board has responsibility and determining of module marks.
- Arrangements for the retrieval of failure.
- The application of regulations relating to a first reassessment attempt.
- Ensuring compliance with professional, statutory and regulatory body requirements, where appropriate.

Conflicts of interest

A potential conflict of interest relates to where there is a risk that the official capacity of a member of the MAB will be unduly influenced by a close connection, loyalty or vested interest in a student under consideration. There is a possibility a member's position may derive personal benefit and/or put into question whether their actions, judgement and/or decision-making in their official capacity can be unbiased.

It is assumed that all board members will execute their duties with the appropriate level of professionalism, integrity and trust expected. Addressing potential conflicts of interest is a precautionary measure to protect employees against criticism or compromise, and where recognised and disclosed, allows appropriate steps to be taken to avoid and manage them.

A connection which could constitute a potential conflict of interest includes (but is not limited to) a close personal or mutually-beneficial relationship such as friendship, family relative or work colleague (particularly hierarchical, where there is a difference in power between the parties, or perceived/actual vulnerability of one of the parties).

If a member of the MAB is aware of any potential conflict of interest, this must be declared and recorded in the minutes of the meeting and the individual will not take part in any discussion covering the areas or student(s) concerned. At the discretion of the chair, the member concerned may be permitted to remain in attendance for the duration of these discussions and invited to respond to queries of a factual nature relating to them.

Constitution

Role	
Chair	Senior academic from faculty
Module leaders	One for each module
External examiner(s)	External examiner(s)
In attendance	• Servicing officer/faculty administrative staff • Associate Dean (Academic) or nominee

Quoracy and attendance

To affect a quorum the following must be present:

- Chair or deputy chair
- Module leader(s) or their nominee for all modules under consideration
- Associate Dean (Academic) or their nominee (a senior academic who may have more than one role at the MAB)
- Servicing officer

The following roles reserve the right to attend any MAB (regardless of whether their nominee or representative is in attendance):

- PVC/Dean
- Associate Dean (Academic)
- The Executive Director of Student and Academic Services or their representative

Appendix 1: Progression and award board (PAB) terms of reference

Establishment

Progression and award boards (PABs) are established by and within faculties, subject to the approval of the Faculty Academic Committee (FAC). They have the formal status of standing committees of the FAC and are subject to such standing orders as are determined by the Academic Board. It is the responsibility of the FAC annually to approve the membership for each PAB, and to determine that each is properly constituted. It is the responsibility of each PAB annually to approve the membership for each module assessment board(s) (MABs) that sits underneath it, and to determine that each is properly constituted. The name of the PAB will be determined by the programme grouping(s) associated with the board, for example fine art PAB.

The PAB has the responsibility for reviewing student performance at programme level, making decisions in relation to student progression between levels of study and recommending awards and degree classifications in all programmes leading to named awards which are allocated to the PAB.

Terms of reference

Working within university rules, regulations and protocols, each PAB is responsible for:

- The application of university and programme regulations relating to progression.
- Reviewing, checking and approving assessment profiles leading to named awards and determining awards and degree classification for confirmation by the Executive Director of Student and Academic Services.
- Ensuring compliance with professional, statutory and regulatory body requirements, where appropriate.
- Arrangements for the retrieval of failure.
- The application of regulations relating to a second reassessment attempt.
- Making decisions regarding the suspension or ending of registration of students who do not meet progression or award requirements.

Conflicts of interest

A potential conflict of interest relates to where there is a risk that the official capacity of a member of the PAB will be unduly influenced by a close connection, loyalty or vested interest in a student under consideration. There is a possibility a member's position may derive personal benefit and/or put into question whether their actions, judgement and/or decision-making in their official capacity can be unbiased.

It is assumed that all board members will execute their duties with the appropriate level of professionalism, integrity and trust expected. Addressing potential conflicts of interest is a precautionary measure to protect employees against criticism or compromise, and where recognised and disclosed, allows appropriate steps to be taken to avoid and manage them.

A connection which could constitute a potential conflict of interest includes (but is not limited to) a close personal or mutually-beneficial relationship such as friendship, family relative or work colleague (particularly hierarchical, where there is a difference in power between the parties, or perceived/actual vulnerability of one of the parties).

If a member of the PAB is aware of any potential conflict of interest, this must be declared and recorded in the minutes of the meeting and the individual will not take part in any discussion covering the areas or student(s) concerned. At the discretion of the chair, the member concerned may be permitted to remain in attendance for the duration of these discussions and invited to respond to queries of a factual nature relating to them.

Constitution

Role	
Chair	Senior academic from faculty
Lead academic(s)	One representative from each subject/cognate area
External examiner(s)	External examiner(s) representative
In attendance	• Servicing officer/faculty administrative staff • Associate Dean (Academic) or nominee • Representative of the Executive Director of Student and Academic Services

Quoracy and attendance

To affect a quorum the following must be present:

- Chair or deputy chair
- Lead academic(s) for all programmes under consideration
- Associate Dean (Academic) or their nominee (a senior academic who may have more than one role at the PAB)
- Servicing officer
- Representative of the Executive Director of Student and Academic Services

The following roles reserve the right to attend any PAB (regardless of whether their nominee or representative is in attendance):

- PVC/Dean
- Associate Dean (Academic)
- The Executive Director of Student and Academic Services

Appendix 2: Award classification calculations

Minimum credits needed to gain a university award – overview

Award	Credits				
	Level 4	Level 5	Level 6	Level 7	Total
Integrated master's degree with sandwich placement	120	150	120	120	**510**
Integrated master's degree	120	120	120	120	**480**
Honours degree with 30 credit sandwich placement	120	150	120		**390**
Honours degree	120	120	120		**360**
Graduate diploma (GradDip)			120		**120**
Non-honours degree	120	120	60		**300**
Graduate certificate (GradCert)			60		**60**
Foundation degree (Fd)	120	120			**240**
Diploma of higher education (DipHE)	120	120			**240**
Higher National Diploma (HND)	120	120			**240**
Higher National Certificate (HNC)	120				**120**
Certificate of higher education (CertHE)	120				**120**
University Certificate of Professional Development (UCPD)	60 credits at levels 4, 5 or 6				**60**

Classification of awards – overview

Classification band	Integrated master's Honours degree	Foundation degree HNC/HND UCPD
70% and above	First class honours	Distinction
60-69%	Upper second (2:1)	Merit
50-59%	Lower second (2:2)	Pass
40-49%	Third class honours	Pass
Below 40%	Fail	Fail

Consideration band – overview

Classification	Classification band	Consideration band
First class honours	70% and above	68-69%
Upper second (2:1)	60-69%	58-59%
Lower second (2:2)	50-59%	48-49%

Integrated master's degree with 30 credit sandwich placement

Credits	Counts towards classification	Module mark	Classification banding
Level 4			
120	**0**	**N/A**	120 credits required at level 4 to gain an award. Module marks excluded from classification calculation.
Level 5			
30	x2	55%	Lower second (2:2)
30	x2	67%	Upper second (2:1)
30	x2	43%	Pass
30	x2	71%	First class honours

30	x1 (discount 15 credits)	66%	Upper second (2:1)
30	x2	88%	First class honours
30	x2	70%	First class honours
270	**7**	**528**	
420			

How the classification is calculated

Criteria	Average mark for classification calculation
1) Best 240 credits of the 255 studied at levels 5 and 6, single-weighted, and the:	<u>Levels 5 and 6:</u> 55 + 55 + 67 + 67 + 43 + 43 + 71 + 71 + 63 + 63 + 73 + 73 + 79 + 79 + 62 + 62 = 1026 ÷ 16 = 64.1, rounded down to 64 (upper second (2:1))
2) Best 105 credits of the 120 studied at level 7, triple-weighted	<u>Level 7:</u> 73 + 73 + 66 + 88 + 88 + 70 + 70 = 528 ÷ 7 = 75.4, rounded down to 75 (first class honours)
Level 5 and 6 single-weighted plus level 7 triple-weighted	<u>Overall:</u> 64 + 75 + 75 + 75 = 289 ÷ 4 = 72.2 rounded down to **72 (first class honours)**

Outcome

The student is awarded a **first class integrated master's degree** (with placement) as the overall average mark for classification is 72%.

Integrated master's degree

Credits	Counts towards classification	Module mark	Classification banding
Level 4			
120	**0**	**N/A**	120 credits required at level 4 to gain an award. Module marks excluded from classification calculation.

Level 4			
120	**0**	**N/A**	120 credits granted under Recognition of Prior Learning (RPL)
Level 5			
120	**0**	**N/A**	120 credits granted under Recognition of Prior Learning (RPL)
Level 6			
30	x2	68%	Upper second (2:1)
30	x2	49%	Third class honours
30	x1 (discount 15 credits)	47%	Third class honours
30	x2	63%	Upper second (2:1)
120	**7**	**407**	
360			

How the classification is calculated

Criteria	Average mark for classification calculation
1) Best 105 credits of the 120 studied at level 6	Level 6/overall: 68 + 68 + 49 + 49 + 47 + 63 + 63 = 407 ÷ 7 = 58.1, rounded down to **58 (lower second (2:2))**

Consideration band		2:2	2:1	First
Is the overall average mark for classification within two per cent of the next classification band? If so, which classification band does …				
1) The level 6 average mark across the 120 credits sit in? **or**		✓		
2) At least 50 per cent of the 120 level 6 credits sit in?			✓	

Outcome

Although the overall average mark for classification is 58% (lower second (2:2)), the student is awarded an **upper second (2:1) honours degree**. This is because they fall into the consideration band and have at least 50 per cent of the 120 level 6 credits in the higher classification band.

Foundation degree (Fd)/Higher National Diploma (HND)

Credits	Counts towards classification	Module mark	Classification banding
Level 4			
120	0	N/A	120 credits required at level 4 to gain an award. Module marks excluded from classification calculation.
Level 5			
30	x2	63%	Merit
30	x2	67%	Merit
30	x2	55%	Pass
30	x2	70%	Distinction
120	**8**	**510**	Overall average mark for classification calculation: 63 + 63 + 67 + 67 + 55 + 55 + 70 + 70 = 510 ÷ 8 = 63.7, rounded up to **64 (merit)**
240			

Outcome

The student is awarded a **foundation degree (Fd)/Higher National Diploma (HND) with merit** as the overall average mark for classification is at merit level.

Higher National Certificate (HNC)

Credits Level 4	Counts towards classification	Module mark	Classification banding
30	x2	55%	Pass
30	x2	61%	Merit
30	x2	48%	Pass
15	x1	53%	Pass
15	x1	45%	Pass
120	**8**	**426**	Overall average mark for classification calculation: 55 + 55 + 61 + 61 + 48 + 48 + 53 + 45 = 426 ÷ 8 = 53.2, rounded down to **53 (pass)**

Outcome

The student is awarded a **Higher National Certificate (HNC) pass** as the overall average mark for classification is at pass level.

University Certificate of Professional Development (UCPD)

Credits Level 5	Counts towards classification	Module mark	Classification banding
30	x2	71%	Distinction
30	x2	65%	Merit
60	**4**	**272**	Overall average mark for classification calculation: 71 + 71 + 65 + 65 = 272 ÷ 4 = **68 (merit)**

Outcome

The student is awarded a **University Certificate of Professional Development (UCPD) with merit** as the overall average mark for classification is at merit level.

Appendix 3: Extensions to coursework deadlines guidance

The guidance below is to support students in making applications for an extension to a coursework deadline and to support module leaders (or other authorised persons) in considering the approval of a request.

Requests should be made on the coursework extensions request e-form in as timely a manner as possible. Requests received later than 24 hours before the date and time that the work is due to be submitted will not be considered.

Should an extension to a coursework deadline be granted, this does not guarantee the approval of any future extension requests.

Extensions to deadlines can only be granted up to a maximum of five university working days as outlined in section 5 of these regulations. However, please consider setting a shorter extension appropriate to the student's circumstances. The agreed deadline should be communicated to the student by email.

Relevant circumstances and evidence to support the request

The table below lists the circumstances in which an extension request is likely to be granted. The reason for the request and the evidence to support it should be timely and show clearly how the circumstance affects the student's ability to work in the days/weeks prior to the coursework submission date.

Evidence which does not cover the time period in question will not be accepted to support an extension request. Other evidence which will not be accepted includes self-certification, statements from family and friends, social media postings, illegible evidence and evidence in a language other than English.

If a student believes the university already holds relevant information which could be used as evidence, details should be provided on the request form.

Circumstance	Examples of evidence
Recent short-term physical illness, injury or mental health issue	Dated and signed letter from doctor, consultant, hospital, dentist, counsellor or other external support service Ambulance documentation Letter of support/explanation from a support service in the university
Long-term or chronic physical or mental health condition which has recently worsened, temporarily or permanently	Dated and signed letter from doctor, consultant, hospital, dentist, counsellor or other external support service Ambulance documentation Letter of support/explanation from a support service in the university
A hospital appointment which cannot reasonably be rescheduled and which directly conflicts	Letter from hospital confirming appointment date and time

Circumstance	Examples of evidence
with a time-constrained coursework assessment	
An unexpected issue relating to pregnancy, maternity or paternity	Dated and signed letter from doctor, midwife, consultant, hospital or other external support service
Recent bereavement or serious illness of a person with whom/ the student has a close relationship or a responsibility of care	Dated and signed letter from doctor, consultant, hospital, dentist, counsellor or other external support service
	Death certificate, public announcement, legal document or order of service as proof of bereavement
Recent breakdown in a long-term relationship	Dated and signed letter from external support service
	Letter of support/explanation from a support service in the university or De Montfort Students' Union
Emergencies involving dependents or caring responsibilities, including caring responsibilities for an adult family member/sibling	Email/letter from organised carers to confirm the breakdown in normal arrangements eg school, nursery, care home; email/letter from doctor, Social Services or carers' charity
Being the victim of a crime, which is likely to have significant emotional impact	Crime reference number and crime report (if available)
Military conflict, natural disaster, major and exceptional travel disruptions or extreme weather conditions	Flight, rail or coach disruption summary for significant travel issues
Recent significant personal incident such as house fire, homelessness	Insurance letter
	Letter from external support service
Appearance at court or jury service	Solicitor's letter in relation to attendance at court as a witness, defendant or plaintiff
	Bail information or charge sheet
	Jury service letter
Recent and exceptional financial difficulties beyond the student's control	Bank letters, Student Finance England letters, council letters, documentation from Citizens' Advice Bureau for significant financial issues
	Support letter from the university or De Montfort Students' Union

Circumstances in which an extension request will not be approved

An extension to a coursework deadline will not be granted in circumstances which could be reasonably anticipated such as routine medical appointments, holidays, weddings, moving

house, sporting events, acts of religious observance and other similar circumstances which are foreseeable.

Minor short-term illnesses or injury such as a common cold would not have a significant adverse ability on a student's ability to complete the assessment on time and are not grounds for approval of an extension. Medical conditions not diagnosed/supported by a doctor are not normally acceptable grounds for an extension; this includes medical certificates with statements such as 'the patient informs me that...', 'the patient reported that…' and 'student declared that they had been unwell…'

An extension will not be granted where a student's own organisational abilities have caused an issue with meeting a deadline. These include poor time management, failure of IT equipment, uploading incorrect information to Turnitin, commitments to paid or voluntary employment and other similar situations.

An extension will not be granted in cases in which running for office (for example as an officer of De Montfort Students' Union) has caused an issue with meeting a deadline.

A period of suspension, debt hold or debt exclusion is not a valid reason for an extension. This includes situations where the submission deadline falls within the period of suspension, debt hold or debt exclusion.

If an extension request is incomplete or is received later than the deadline specified in the overview, above, it will be rejected.

Where an extension is granted, failure to meet the new deadline will result in a penalty for late submission.
