Undergraduate

Biomedical Science BSc (Hons), B90044
Institute of Biomedical Science

Compensation
Generic regulations apply at levels 4 and 5. All level 6 modules must be passed at 40 per cent. No compensation is available.

BIOM1066
This is a zero credit weighted module. Resit opportunities are limited to two attempts.

Community Justice BA (Hons)/GradDip, L56048
Her Majesty’s Prison & Probation Service

Passing a module/Compensation
All module components must be passed at 40 per cent. No compensation is available.

Reassessment of failure
Up to 90 credits of reassessment opportunities are available. A student may have only one reassessment attempt at the 45 credit module and may utilise up to 45 credits of reassessment for the remaining modules, with a maximum of two reassessment attempts at any one module.

Undergraduate awards
This is a level 6 programme and is therefore classified on the best 105 level 6 credits. The graduate diploma does not receive a classification.

Criminal Investigation with Policing Studies BA (Hons), L43561

CRIM1013
This zero credit weighted module contains six essential assessment components. Students must pass each component in order to achieve the Certificate of Knowledge in Policing (CKP).
Faculty of Health and Life Sciences 2019/20

Programme Specific Regulations

Diagnostic Radiography, B82141
Health and Care Professions Council (HCPC)

Passing a module/Compensation
No compensation of credits is allowed between modules and/or individual assessments.

Reassessment of failure
Students on the programme are permitted reassessment opportunities to a maximum of 90 credits at each academic level, in any permutation or combination of module sizes. Reassessment in DRAD1008, DRAD2008 and DRAD3008 (clinical practice modules) is limited to one opportunity only.

Repeating an undergraduate level of study
Students on the programme do not qualify for an automatic repeat of Year 1 if they have gained 60 credits.

BSc District Nursing (with NMC SPQ) and Community Practitioner Nurse Prescriber (NMC V100) (B72042) (Module SPEC3616)
From September 2017 onwards

Reassessment of failure
The zero credit practice portfolio module can be reassessed on one occasion.

Health and Professional Practice BSc (Hons)/BSc/GradCert/GradDip, B70051

Passing a module/Compensation
All module components must be passed at 40 per cent. All zero-credit (pass/fail) components must be passed. No compensation is available.

Maximum periods of registration
The maximum periods of registration will normally be four years on the BSc/GradCert and six years on the BSc (Hons)/GradDip.

Recognition of Prior Learning (RPL)
For non-honours students 15 credits of RPL are available at level 6. For honours students 45 credits of RPL are available at level 6.

Classification of awards
This is a level 6 programme and is therefore classified on the best 105 level 6 credits.

Where a student has studied and passed more than 120 credits, degree classification will be based on an average of the total number of credits, excluding the 30 credits with the lowest mark(s). Where a student has studied and passed less than 120 level 6 credits (due to RPL) classification will be based upon the average of the marks for all modules studied.
Healthcare Science (Audiology) BSc (Hons), B61044
Health and Care Professions Council (HCPC) and National School of Healthcare Science

Passing a module/Compensation
For the clinical practice modules all module components must be passed at 40 per cent. All other modules must be passed at 40 per cent. No compensation is available.

Repeating an undergraduate level of study
Students are not permitted to repeat an undergraduate level of study.

Reassessment of failure
Students undertake a mix of level 5 and level 6 modules during their second and third years as follows:
• Second year: 60 credits at level 5 and 60 credits at level 6
• Third year: 60 credits at level 5 and 60 credits at level 6

Students will be allowed a maximum of 60 credits of reassessment in each year of study, with no more than 30 credits of reassessment in each year of study at each level.

Healthcare Science (Audiology) Top-up BSc (Hons), B61045
Health and Care Professions Council (HCPC) and National School of Healthcare Science

Passing a module/Compensation
For the clinical practice modules all module components must be passed at 40 per cent. All other modules must be passed at 40 per cent. No compensation is available.

Repeating an undergraduate level of study
Students are not permitted to repeat an undergraduate level of study.

Reassessment of failure
Students will be allowed a maximum of 60 credits of reassessment at level 6 and 15 credits at level 5 in total over either the 2 or the 3 year route. The zero credit level 4 module, HCSC1000, can be re-sat once in total.

Healthcare Science (Audiology) BSc (Hons), B61046
Health and Care Professions Council (HCPC) and National School of Healthcare Science

Passing a module/Compensation
There are parts of the programme that are compulsory which you must pass to progress and graduate. All modules have a minimum 40% pass mark overall (no compensation is available). All module components also have a minimum 40% pass mark (unless otherwise stated).
Faculty of Health and Life Sciences 2019/20

Programme Specific Regulations

Repeating an undergraduate level of study
Students are not permitted to repeat an undergraduate level of study.

Undergraduate awards
Although the university regulation does allow the consideration of an Aegrotat award, it should be noted that if an individual were given such an award as part of the programme they would not be eligible to apply for HCPC registration. This is because the Health and Care Professions Council do not allow consideration of an Aegrotat award.

Hearing Aid Audiology FdSc, B61011
Hearing Aid Council

Passing a module/Compensation
All modules are must-pass modules and students must achieve a pass mark of 40 per cent. No compensation is available.

Reassessment of failure
On the accelerated programme students will have a maximum of 90 credits of reassessment opportunities for the entire programme.

Progression between undergraduate levels of study
On the non-accelerated route students must pass all the practice competencies contained within level 4 AUDY1405 to progress to level 5.

Undergraduate awards
Students must complete the personal hearing aid audiology reflective portfolio of their practical training through the two years in order to receive the award.

Human Communication (Speech and Language Therapy) BSc (Hons), B60041/B60042 (non-commissioned route)
Health and Care Professions Council (HCPC)

Passing a module/Compensation
All modules are must-pass modules and students must achieve a pass mark of 40 per cent. No compensation is available.

Reassessment of failure
A student will have a maximum of 90 credits of reassessment opportunities at each level of study, including within the 180 level 6 credits.

Students who fail the clinical placement report or the video tutorial in SALT3333 and/or SALT3044 may have only one reassessment opportunity between the two modules. Students who fail the viva component in either SALT 3333 and/or SALT 3044 may normally have one reassessment opportunity in each module. Students exceeding this will only be eligible for an academic award without eligibility for state registration – BSc (Hons) Human Communication.
Progression between undergraduate levels of study

Full-time students

Students may normally only proceed into level 5 on successful completion of all level 4 modules except that students may proceed carrying one or more failed ‘practical’ component of SALT1003 (introduction to phonetics and phonology) providing this is retrieved during level 5 (phase tests 1, 2, 3 – threshold 66 per cent).

Students may normally only proceed into level 6 on successful completion of all level 5 modules except that students may proceed carrying one failed ‘practical’ component (practical 1 phonetic transcription threshold 66 per cent) of SALT2004 (clinical linguistic assessments) providing this is retrieved during the next academic session.

Students may normally only proceed into the final 60 credits at level 6 on successful completion of the first 120 credits of level 6 modules.

Progression of part-time undergraduate students

Students studying part-time must normally successfully complete all modules in each year of study before proceeding to the next except that students may proceed carrying one or more failed ‘practical’ component (phase tests 1, 2, 3 – threshold 66 per cent) of SALT1003 (phonetics and phonology) and the practical component of SALT2004 (clinical linguistic assessments), providing that it is retrieved in the next year of study.

Fitness to practice

Students must attend for occupational health assessment if asked to do so by the programme leader or deputy. Students who experience such health issues as to render them unable to practice safely and effectively may, at the discretion of the programme board, be unable to pursue the professional programme.

Repeating an undergraduate level of study

Students are not permitted to repeat an undergraduate level of study.

Awards of the university

Students must achieve 420 credits to gain the award.

Students who fail the project module receive the award BSc/BSc (Hons) Human Communication under generic university regulations. This award does not entitle graduates to apply to the HCPC for state registration.

Classification is based upon the best 105 credits from the 120 at level 5 and the best 150 credits from the 165 credits at level 6 (6+). 15 credits at level 6 are pass/fail and are excluded from the calculation.

For the academic, non-accredited exit award, the BSc (Hons) Human Communication, the best 120 level 6 credits should be utilised within the classification algorithm but no consideration band will be applied as the lowest module results have already been discounted.
The following regulations apply to the programmes listed below:

**Low Intensity Psychological Interventions GradCert, C84041**

**Low Intensity Psychological Interventions PgCert, C84080**

Introduction to modules
The programme consists of 20 credit modules.

Passing a module
All module components must be passed at 40 per cent (C84041) 50% C84080. All zero-credit (pass/fail) components must be passed.

Reassessment of failure
Students are only allowed one reassessment attempt per module.

Failure of a module due to gross professional misconduct will result in immediate dismissal from the programme.

Students must maintain contractual services with the designated service provider for the duration of the programme. If they fail to do so they will be suspended pending investigation and may be terminated from the programme.

Attendance
Each module has a 100 per cent attendance requirement for taught content. The clinical practice element has an 80 per cent attendance requirement. If a student falls below these requirements they must demonstrate that they have completed any missed work.

The following additional regulations also apply to:

**Low Intensity Psychological Interventions GradCert, C84041 ONLY**

Compensation
No compensation is available.

**Midwifery (pre-registration) BSc (Hons), B72048 (commissioned)/B72051 (non-commissioned)**

**Nursing and Midwifery Council (NMC)**

Passing a module/Compensation
All module components must be passed at 40 per cent. In some instances this is 80 per cent (eg OSCE assessments). No compensation is available.

Reassessment of failure
A student will have a maximum of 90 credits of reassessment opportunities at each level of study.
Faculty of Health and Life Sciences 2019/20

Programme Specific Regulations

Progression between undergraduate levels of study
The first progression point as outlined by the NMC is to be achieved by the end of level 4 study. Therefore a student must complete all modules successfully at level 4, including retrieval of any failure, within 12 weeks of the Assessment board where progression is confirmed.

The second progression point as outlined by the NMC is to be achieved by the end of level 5 study. Therefore a student must complete all modules successfully at level 5, including retrieval of any failure, within 12 weeks of the Assessment board where progression is confirmed.

Repeating an undergraduate level of study
The Regulation to Repeat Level 4 study is not applicable to this programme.

Awards of the university
Students must complete 120 credits at level 6 to achieve a BSc (Hons) Midwifery with NMC registration as a midwife.

Exceptionally a student who has gained sufficient credit for the award may fail to achieve the award because of failing NMC professional conduct in practice or though the fitness to practice procedure.

Failure due to gross professional misconduct will result in immediate dismissal from the programme.

A second failure of professional conduct will result in dismissal from the programme.

The following regulations apply to the programmes listed below:

Independent/Supplementary Prescribing (V300) Programme Level 6 Undergraduate Programme Code B23050

Students Must:
Have successfully passed PRES 3005 Applied Prescribing Module (30 credits)
Practice Portfolio (pass/fail)
3000 word reflection (passed at 40%)
Have successfully passed PRES 3006 Pharmacology for prescribers module (15 credits)
Passed Numeracy exam with 100%
Passed pharmacology exam with 80%
Passed 2000 word written assignment with 40%

In order to gain the qualification of Independent and Supplementary prescriber (V300)
Students Must:
Be registered with the NMC as a nurse (level 1) or a midwife or be registered with the HCPC as a physiotherapist, podiatrist, paramedic or therapeutic radiographer.
In order to gain the qualification of a Supplementary prescriber (V300)
Students Must:
Be registered with the HCPC as a diagnostic radiographer or dietician.

Students are allowed 2 attempts at the numeracy examination within the module. If neither of these attempts are passed the marks will be presented to the exam board as a fail. The student will then have one opportunity to pass this element of the module.

Students who fail one or more element of each module will be given one re-submission opportunity to achieve a pass grade for the module.

Independent/Supplementary Prescribing (V300) Programme Level 7 Post Graduate
Programme Code B23081

Students Must:
Have successfully passed PRES 5005 Applied Prescribing Module (30 credits)
Practice Portfolio (pass/fail)
4000 word reflection (passed at 50%)
Have successfully passed PRES 5006 Pharmacology for prescribers module (15 credits)
Passed Numeracy exam with 100%
Passed pharmacology exam with 80%
Passed 2500 word written assignment with 50%

In order to gain the qualification of Independent and Supplementary prescriber (V300)
Students Must:
Be registered with the NMC as a nurse (level 1) or a midwife or be registered with the HCPC as a physiotherapist, podiatrist, paramedic or therapeutic radiographer.

In order to gain the qualification of a Supplementary prescriber (V300)
Students Must:
Be registered with the HCPC as a diagnostic radiographer or dietician.

Students are allowed 2 attempts at the numeracy examination within the module. If neither of these attempts are passed the marks will be presented to the exam board as a fail. The student will then have one opportunity to pass this element of the module.

Students who fail one or more element of a module will be given one re-submission opportunity to achieve a pass grade for each element of the module.

Non-medical Prescribing BSc/GradCert, B70042
with NMC V300/PN025A with HCPC IP/SP
Non-medical Prescribing PGCert, B23079
with NMC V300/PN185U with HCPC IP/SP
Nursing and Midwifery Council (NMC) and Health and Care Professions Council (HCPC)
Reassessment of failure
The zero credit practice portfolio module can be reassessed on one occasion.

Awards of the university
Exceptionally a student who has gained sufficient credit for the award may fail to achieve the award because of failing NMC/HCPC professional standards and proficiencies through the practice portfolio.

Failure due to gross professional misconduct will result in immediate dismissal from the programme.

The following additional regulations also apply to:
Non-medical Prescribing BSc/GradCert, B70042 ONLY
Passing a module/Compensation
All module components must be passed at 40 per cent. All zero-credit (pass/fail) components must be passed. No compensation is available.

The following additional regulations also apply to:
The NMC V300 routes – B70042 BSc/GradCert (PN024A) and B23079 PgCert (PN185T) ONLY
Awards of the university
The NMC V300 recorded qualification is linked to the BSc and GradCert (PN024A) and the PgCert (PN185T) only and is for nurses and midwives only.

The following additional regulations also apply to:
The HCPC IP/SP routes – B70042 BSc/GradCert (PN025A) and B23079 PgCert (PN185U) ONLY
Awards of the university
The annotation as an independent and supplementary prescriber with the HCPC is linked to the BSc (PN025A) and PgCert (PN185U) only and is for physiotherapists and podiatrists only.

The annotation as a supplementary prescriber with the HCPC is linked to the BSc (PN025A) and PgCert (PN185U) only and is for radiographers only.

Nursing BSc (Hons), B70052 (commissioned)/B70056 (non-commissioned) ONLY and Nursing BSc (Hons) (dual registration pathway), B70054 ONLY
Nursing and Midwifery Council (NMC)

Passing a module/Compensation
All module components must be passed at 40 per cent. In some instances the components can be higher than 40%. All zero-credit (pass/fail) components must be passed. No compensation is available.

Reassessment of failure
A student will have a maximum of 90 credits of reassessment opportunities at each level of study.
Faculty of Health and Life Sciences 2019/20

Programme Specific Regulations

Classification of awards
Professional responsibility 1 and 2 are zero credit modules which embed the practice requirements for nursing. Each zero credit module can be reassessed on two occasions. If the module is failed at the first reassessment the student will be back-grouped to a different cohort to allow the second and final attempt at the module. No reassessment is available on the back-grouped attempt.

Repeating an undergraduate level of study
The Regulation to Repeat Level 4 study is not applicable to this programme.

Undergraduate awards
Exceptionally a student who has gained sufficient credit for the award may fail to achieve the registered award because of failing NMC professional guidelines in practice or through the fitness to practice procedure. The students will be awarded a Health Related Studies award.

Failure due to gross professional misconduct will result in referral to Fitness to Practice and potential dismissal from the programme.

A second failure of professional conduct will result in dismissal from the programme.

Progression between undergraduate levels of study
The first progression point as outlined by the NMC is to be achieved by the end of level 4 study. Therefore a student must complete all modules successfully at level 4, including retrieval of any failure, within 12 weeks of the assessment board when progression was confirmed.

The second progression point as outlined by the NMC is to be achieved by the end of level 5 study. Therefore a student must complete all modules successfully at level 5, including retrieval of any failure, within 12 weeks of assessment board when progression was confirmed.

The following additional regulations also apply to:
Nursing BSc (Hons) (dual registration pathway), B70054 ONLY
Progression between undergraduate levels of study
The progression points as outlined by the NMC are at eighteen month intervals. All requirements for award and registration will be met at four years rather than three.

Nursing Associate B70012
Nursing and Midwifery Council (NMC)

Passing a module/Compensation
All module components must be passed at 40 per cent. In some instances the components can be higher than 40%.
Faculty of Health and Life Sciences 2019/20

Programme Specific Regulations

Reassessment of failure
A student will have a maximum of 90 credits of reassessment opportunities at each level of study.

**Paramedicine BSc (Hons), B95041**
**Associate Ambulance Practice DipHE, B95021**
**Emergency Medical Care, Cert HE, B95022**
*Health and Care Professions Council (HCPC)*

Reassessment of failure
Students on the programme are permitted reassessment opportunities to a maximum of 90 credits at each academic level, in any permutation or combination of module sizes.

**Assessment**
PARA3015 Paramedic Clinical Pharmacology Unseen Exam Part 1 (Numeracy) pass threshold of 100%
PARA3015 Paramedic Clinical Pharmacology Unseen Exam Part 2 (Pharmacology) pass threshold of 80%

**Pharmacy MPharm, B23044**
*General Pharmaceutical Council (GPhC)*

**Passing a module/Compensation**
All core module components must be passed at 40 per cent.

Additionally to the above, the pass mark for module components and/or the overall module for PHAR1605, PHAR2605, PHAR3605 and PHAR4604 is greater than 40 per cent. In some instances this is 50 per cent (e.g. law and dispensing assessments) or 70 per cent (e.g. calculations assessments).

All modules must be passed at 40 per cent, apart from PHAR1601, PHAR2601, PHAR3601 and PHAR4601 which are non-credit bearing and have pass/fail components, all of which must be passed.

No compensation is available.

**Progression between undergraduate levels of study**
Students must pass all modules before progressing to the next level.

**Maximum period of registration**
The normal expected duration of the programme is four years and the mode of study is full-time only. The maximum period of registration for the programme is normally six years and the maximum period allowed for studying at any one level is normally two years.
Faculty of Health and Life Sciences 2019/20

Programme Specific Regulations

Reassessment of failure
A student will have a maximum of 90 credits of reassessment opportunities at each level of study, with the exception of level 7 where a maximum of 60 credits of reassessment opportunities are available. Reassessment opportunities at level 7 are available to a student for 15 months only dating from the first attempt. Each assessment component of a module can be reassessed independently and students may only be reassessed in each module up to a maximum of two occasions.

Repeating an undergraduate level of study
Students are not permitted to repeat an undergraduate level of study.

However if a repeat year is authorised, the student would have a maximum of two years in which to complete that level of study. The maximum period of registration for the programme would remain at 6 years.

Awards of the university
Failure in more than 60 credits in the final year will lead to the award of a BSc (Hons) in Pharmaceutical Studies.

Classification will be determined by an average of all modules at level 5 amounting to 10 per cent of the overall average for classification with the average of the best 105 credits at level 6 and the best 105 credits at level 7 double-weighted towards level 7 amounting to the remaining 90 per cent.

Pharmacy MPharm, B23045
General Pharmaceutical Council (GPhC)

Passing a module/Compensation
All modules are must-pass. This includes PHAR1701, PHAR2701, PHAR3701, PHAR4701 which are zero-credit (pass/fail) modules. No compensation is available.

All components within all modules are must-pass. This includes the pass/fail components within the zero-credit modules. The pass mark required for each component is stipulated in the individual module specifications.

Reassessment of failure
A student will have a maximum of 120 credits of reassessment opportunities at each level of study.

Students are entitled to one reassessment only of each module. This includes the zero-credit modules. Failure of multiple module components will be counted as a single module reassessment. The overall module mark will be capped at the pass threshold.

Progression between undergraduate levels of study
Students must pass all modules before progressing to the next level.
Maximum period of registration
The normal expected duration of the programme is four years and the mode of study is full-time only. The maximum period of registration for the programme is normally six years and the maximum period allowed for studying at any one level is normally two years.

Repeating an undergraduate level of study
Students are not normally permitted to repeat an undergraduate level of study. However, if a repeat year request is authorised outside of this regulation, students would have a maximum of two years in which to complete that level of study. The maximum period of registration of the programme would remain at six years.

Awards of the university
Classification will be determined by an average of all modules at level 5 amounting to 10 per cent of the overall average for classification with the average of the best 105 credits at level 6 and the best 105 credits at level 7 double-weighted towards level 7 amounting to the remaining 90 per cent.

Exit awards
If a student fails to achieve the MPharm qualification, any exit award will follow the university’s generic academic regulations and will lead to an award in Pharmaceutical Studies. Exit awards are not recognised for registration purposes by the GPhC.

Policing BA (Hons), L43581

CRIM1012
This is a zero credit weighted module containing six essential assessment components. Students must pass each component in order to achieve the Certificate of Knowledge in Policing (CKP).

Practice Nursing BSc/Grad Cert, B70095

Introduction to programmes and modules
The programme consists of one 60 credit module.

Passing a module/Compensation
All essential module components must be passed at 40 per cent. All zero-credit (pass/fail) components must be passed. No compensation is available.

Reassessment of failure
60 credits of reassessment are available.
Professional Clinical Practice BSc (Hons)/BSc/GradCert/GradDip, B70241

Passing a module/Compensation
All module components must be passed at 40 per cent. All zero-credit (pass/fail) components must be passed. No compensation is available.

Maximum periods of registration
The maximum periods of registration will normally be two years on the BSc/GradCert and three years on the BSc (Hons)/GradDip.

Recognition of Prior Learning (RPL)
For non-honours students 15 credits of RPL are available at level 6. For honours students 45 credits of RPL are available at level 6.

Classification of awards
This is a level 6 programme and is therefore classified on the best 105 level 6 credits.

Where a student has studied and passed more than 120 credits, degree classification will be based on an average of the total number of credits, excluding the 30 credits with the lowest mark(s). Where a student has studied and passed less than 120 level 6 credits (due to RPL) classification will be based upon the average of the marks for all modules studied.

Degree in Professional Policing BA (Hons), L43582

Passing a module/Compensation
All core module components must be passed at 40 per cent. No compensation is available.

Reassessment of failure
A student will have a maximum of 90 credits of reassessment opportunities at each level of study.

Progression between undergraduate levels of study
Students must pass all modules before progressing to the next level.

Professional Policing BA (Hons), L43591

Passing a module/Compensation
None of the modules which make up this programme (with the exception of the level 5, year two elective modules) allows compensation.

The level 4 Legislation and Policy module, delivered in year one will consists of three separate assessments. These are made up of a group desk-top scenario assessment, an individual student scenario assessment and an individual student multiple choice question assessment. Each of these assessments will be “must pass” assessments and are non-compensatory.
Faculty of Health and Life Sciences 2019/20
Programme Specific Regulations

Reassessment of failure
Students on the programme will be permitted reassessment opportunities to a maximum of 90 credits at each academic level.

Social Work BA (Hons), L50044
Health and Care Professions Council (HCPC)

Passing a module/Compensation
All module components must be passed at 40 per cent. No compensation is available. The programme has a number of credit-bearing pass/fail modules (30 credits at level 5; 45 credits at level 6).

Reassessment of failure
A student will have a maximum of 90 credits of reassessment opportunities at each of levels 4 and 5 and 60 credits at level 6.

Repeating an undergraduate level of study
Students are not permitted to repeat an undergraduate level of study.

Progression between undergraduate levels of study
Students must satisfy the attendance requirement of 70 per cent for all academic modules. Any fails for attendance must be retrieved before a student is allowed to progress.

Students must achieve a 100 per cent attendance for the required number of placement days at each level.

Students cannot progress to the next level of practice placement without having achieved the credits for the previous practice placement.

Normally students may commence the academic modules at level 5 carrying no more than one fail in an academic module at level 4. The academic fail must be redeemed by the end of semester one in level 5. No work will be ratified at the higher level until the previous failure has been redeemed. Students will not be able to proceed to placement until all level 4 modules have been passed, including attendance requirements.

Normally students may commence the academic modules at level 6 carrying no more than one fail in an academic module at level 5. The academic fail must be redeemed by the end of semester one in level 6. No work will be ratified at the higher level until the previous failure has been redeemed.

Awards of the university
Classification will be based upon the best 150 from 165 level 5 and 6 credits, triple-weighted towards level 6.
Faculty of Health and Life Sciences 2019/20

Programme Specific Regulations

Specialist Community Public Health Nursing BSc (Hons), B71046 (Health Visiting)/(School Nursing)
Nursing and Midwifery Council (NMC)

Passing a module/Compensation
All module components must be passed at 40 per cent. All zero-credit (pass/fail) components must be passed. No compensation is available.

Reassessment of failure
A student will have a maximum of 60 credits of reassessment opportunities at each level of study.

Classification of awards
This is a level 6 programme and is therefore classified on the best 105 level 6 credits.

Unsafe practice
Where an element of failure relates to unsafe practice, in either theory or practice, the module will be failed with a mark of zero per cent.

Speech and Language Therapy BSc (Hons), B60051
Health and Care Professions Council (HCPC)

Passing a module/Compensation
All modules are must-pass modules and students must achieve a pass mark of 40 per cent. No compensation is available.

Reassessment of failure
A student will have a maximum of 90 credits of reassessment opportunities at each level of study.

Failure in clinical practice
Students who fail SALT2201 (professional practice 2) may have only two reassessment opportunities for that module. Students exceeding this will only be eligible to continue on a route for an academic award without eligibility for state registration.

Students who fail SALT3202 (professional practice 3) due to failure in the clinical placement report completed by their clinical educator (but not the coursework assignment and clinical viva) may have only one reassessment opportunity. Students who fail SALT3202 due to failure in the coursework assignment and clinical viva may have only two reassessment opportunities. Students exceeding this will only be eligible for an academic award without eligibility for state registration.
Progression between undergraduate levels of study

Full-time students

Students may normally only proceed into year two on successful completion of all level 4 modules except students may proceed carrying one failed component of SALT1008, Introduction to phonetics and phonology, (practical phonetics component, threshold 66 per cent), providing this is retrieved by the end of the second year.

Students may normally only proceed into year three on successful completion of all level 5 modules except students may proceed carrying one failed component of SALT2202, Clinical linguistic assessments (practical phonetics component, threshold 66 per cent), provided that this is retrieved by the end of the third year.

Progression of part-time undergraduate students

Students studying part-time must normally successfully complete all modules in each year of study before proceeding to the next except students may proceed carrying one failed component of SALT1008, introduction to phonetics and phonology (as paragraph one above), and SALT2202, Clinical linguistic assessments (as paragraph two above), provided the failed component is retrieved in the next year of study.

Fitness to practice

In order to attend practice placements and to be eligible to apply for professional registration students must be in sufficiently good mental and physical health to be able to practise without risk to themselves or others. Students must notify the programme leader or deputy if they experience changes to their health status which might have an impact upon fitness to practise. Students about whom there are serious concerns over professional conduct or fitness to practise may be withdrawn from practice placements during investigation of the concerns.

Students must attend for occupational health assessment if asked to do so by the programme leader or deputy. Students who experience such health issues as render them unable to practise safely and effectively may, at the discretion of the assessment board, be unable to pursue the professional programme.

Repeating an undergraduate level of study

Students are not permitted to repeat an undergraduate level of study.

Awards of the university

In exceptional circumstances it is possible for students to transfer to a non-clinical route. In this case students will be awarded an honours or non-honours degree but without the professional qualification or eligibility to apply to the HCPC for state registration or to the Royal College of Speech and Language Therapists for a certificate of eligibility to practise. The title of this degree will be BSc Human Communication. Any student in this position should discuss options with the programme leader. Awards and progression on a non-clinical route will be subject to generic regulations.

Youth Work and Community Development BA (Hons), L53044

National Youth Agency (NYA)
Passing a module/Compensation
All module components must be passed at 40 per cent. No compensation is available.

Reassessment of failure
A student will have a maximum of 90 credits of reassessment opportunities at each of levels 4 and 5.

Progression between undergraduate levels of study
The attendance requirement for the programme is 80 per cent attendance for each level. If a student achieves between 70-80 per cent attendances for the level, they can retrieve the failure during the reassessment period by completing additional work set by the programme team. If a student fails the attendance requirement they will automatically be transferred to the Non PQ programme.

Repeating an undergraduate level of study
Students are not permitted to repeat an undergraduate level of study.

Postgraduate

The following regulations apply to the programmes listed below:
Applied Health Studies MRes, B90075
Psychology MRes, C80075
Social Work MRes, L50075

Introduction to modules
The dissertation is 45 rather than 60 credits.

Clinical Pharmacy/Clinical Pharmacy (with Independent Prescribing)
MSc/PgDip/PgCert, B23077
General Pharmaceutical Council (GPhC) for Independent Prescribing only

Module assessment
From September 2014, any error or action in a summative assessment which may potentially cause the patient harm will be reviewed in light of the National Patient Safety Agency (NPSA) (2010) traffic light system and the NHS (2013) serious incident framework criteria. This review will take place by a panel which will consist of a minimum of the module leader, the internal moderator and the programme leader.
Faculty of Health and Life Sciences 2019/20
Programme Specific Regulations

Incidents which are classed as red, ie causing significant or catastrophic long term patient impact, or serious incidents eg ‘never events’ will result in an overall failure of the whole module with a mark of zero per cent. All assessments for that module must be re-submitted.

Incidents which are classed as amber eg risk of short term patient impact, will result in failure of the relevant assessment component with a mark of zero per cent. Only the failed component must be re-submitted.

Incidents which are classed as green eg no or negligible risk of patient impact, will result in appropriate advice but not a failure of the relevant component.

For the independent prescribing module (PHAR5557 and PHAR5556), any error or action in a summative assessment which may potentially cause the patient harm will be reviewed in light of the NPSA (2010) traffic light system and the NHS (2013) serious incident framework criteria. This review will take place by a panel which will consist of a minimum of the module leader, the internal moderator and the programme leader with advice from the doctor teaching the clinical skills section.

Incidents which are classed as red, ie causing significant or catastrophic long term patient impact, or serious incidents eg ‘never events’ will result in an overall failure of the independent prescribing module and will require resubmission of all of the assessments, not just the one failed.

Incidents which are classed as amber eg risk of short term patient impact, will result in failure of the relevant assessment with a mark of zero per cent. Only the failed assessment must be re-submitted.

Incidents which are classed as green eg where no clinical error has taken place and there is no or negligible risk of patient impact, will result in appropriate advice but not a failure of the relevant component.

Low Intensity Psychological Interventions PgCert, C84080
See Low Intensity Psychological Interventions GradCert (page 35)

PGD Advanced Practice Urgent Primary Care (B90078) (Module MPHE5803)
From September 2017 onwards

Reassessment of failure
The zero credit practice portfolio module can be reassessed on one occasion.

MSc Nursing (Specialist Practice) with NMC SPQ (B70271) (Module SPEC5618)
From September 2017 onwards

Reassessment of failure
The zero credit practice portfolio module can be reassessed on one occasion.
MSc Renal Nursing (B70077) (Module MPHE5707)
From September 2017 onwards

Reassessment of failure
The zero credit practice portfolio module can be reassessed on one occasion.

Non-medical Prescribing PGCert, B23079
PN185T with NMC V300/PN185U with HCPD IP/SP

See Non-medical prescribing BSc/Grad Cert (page 37)

The following regulations apply to the programmes listed below:
Nursing (Specialist Practice) MSc with NMC SPQ (Adult Nursing/Learning Disability Nursing/Mental Health Nursing/General Practice Nursing/District Nursing), B70271
Practice Nursing PgCert, B70096
Nursing and Midwifery Council (NMC)

Unsafe practice
Where an element of failure relates to unsafe practice, in either theory or practice, the module will be failed with a mark of zero per cent.

Specialist Community Public Health Nursing (Health Visiting) or (School Nursing) MSc/PGDip, B71072
Nursing and Midwifery Council (NMC)

Passing a module/Compensation
All module components must be passed at 50 per cent. All zero-credit (pass/fail) components must be passed. No compensation is available.

Reassessment of failure
A student will have a maximum of 60 credits of reassessment opportunities at each level of study.

Unsafe practice
Where an element of failure relates to unsafe practice, in either theory or practice, the module will be failed with a mark of zero per cent.

Pharmacy (CPD), B23091
General Pharmaceutical Council (GPhC) for Independent Prescribing only
Module assessment

For the independent prescribing module (PHAR5557 and PHAR5556), any error or action in a summative assessment which may potentially cause the patient harm will be reviewed in light of the National Patient Safety Agency (NPSA) (2010) traffic light system and the NHS (2013) serious incident framework criteria. This review will take place by a panel which will consist of a minimum of the module leader, the internal moderator and the programme leader with advice from the doctor teaching the clinical skills section.

Incidents which are classed as red, ie causing significant or catastrophic long term patient impact, or serious incidents eg ‘never events’ will result in an overall failure of the independent prescribing module and will require resubmission of all of the assessments, not just the one failed.

Incidents which are classed as amber eg risk of short term patient impact, will result in failure of the relevant assessment with a mark of zero per cent. Only the failed assessment must be re-submitted.

Incidents which are classed as green eg where no clinical error has taken place and there is no or negligible risk of patient impact, will result in appropriate advice but not a failure of the relevant component.

Physician Associate Studies MSc, B96071

Programme Specific Regulations

Eligibility to start postgraduate dissertation, major project and design work

In order to become eligible to start the Practice-Related Project (PHAS5006), students must normally have passed 60 of the 120 credits at first attempt including Clinical and Professional Skills (PHAS5003).

Before starting on the year two placements, students must normally have passed Clinical and Professional Skills (PHAS5003).

Awards of the university

The award of the MSc Physician Associate Studies will be awarded only if all components have been passed, including the national exam.

A PgCert Clinical Sciences will be awarded if 60 credits have been passed from the first year of study.

A PgDip Clinical Sciences will be awarded if 120 credits have been passed (not including Practice-Related Project (PHAS5006)) but the student has failed Clinical Portfolio (PHAS5007).

An MSc Clinical Sciences will be awarded if 180 credits have been passed (but not the Clinical Portfolio (PHAS5007) or National Exam (PHAS5008)).
Faculty of Health and Life Sciences 2019/20

Programme Specific Regulations

A PgDip Physician Associate Studies will be awarded if the following have been passed: 120 credits, Clinical Portfolio (PHAS5007), National Exam (PHAS5008) (but the student has failed the Practice-Related Project (PHAS5006)).

Practice Nursing PgCert, B70096

Introduction to programmes and modules
The programme consists of one 60 credit module.

Passing a module/Compensation
All essential module components must be passed at 50 per cent. All zero-credit (pass/fail) components must be passed.

Reassessment of failure
60 credits of reassessment are available.

Psychology MRes, C80075
Social Work MRes, L50075

See MRes programmes (page 43)

Social Work Practice Education PgCert, L50078
The College of Social Work

Awards of the university
SCWK5101 – practice educator stage one: students must pass the practice mentor assessor report before they are eligible to start SCWK5102 – practice educator stage two. This is to ensure that students have demonstrated The College of Social Work requirements for stage one practice educator professional standards before progressing to stage two.

Specialist Community Public Health Nursing (Health Visiting or School Nursing) MSc/PGDip, B71071

See Practice/specialist nursing postgraduate programmes (page 46)

Youth/Health and Community Development Studies MA/PgDip, L53072 (CPD PT)/L53074 (CPD FT)

Eligibility to start postgraduate dissertation, major project and design work
In order to become eligible to start the dissertation, students must normally have passed 60 of the 120 taught credits at the first attempt.
Faculty of Health and Life Sciences 2019/20

Programme Specific Regulations

Health and social research methods (ASCS5201) must normally be passed before the dissertation can be commenced.

Youth Work/Health and Community Development MA/PgDip, L53075 (PQ PT)/PROGRAMME CODE (PQ FT) L53076
Standards Board for England and National Youth Agency (NYA)

Eligibility to start postgraduate dissertation, major project and design work
In order to become eligible to start the dissertation, students must normally have passed 60 of the 120 taught credits at the first attempt.

Health and social research methods (ASCS5201) must normally be passed before the dissertation can be commenced.

Awards of the university
The award of the MA/PgDip with Joint Negotiating Committee (JNC) professional qualification is dependent on all practice hours being successfully completed.

The following additional regulations also apply to:
Youth Work/Health and Community Development MA/PgDip, L53075 (PQ PT) ONLY
Eligibility to start postgraduate dissertation, major project and design work
Professional field practice (ASCS5218) must normally be passed before the dissertation can be commenced.
