

## Safe routes across campus

The routes highlighted in green on the map are routes the security team suggests are safer when it starts to get dark. While no route can be guaranteed as 100 per cent safe, these routes have been suggested as safer than others because there is more lighting, more traffic and most of them are covered by CCTV.

Please keep yourself safe – be aware of your surroundings, let someone know where you're going and keep your phone charged.

We have a proactive 24/7 security team ready to respond to your concerns with a police officer dedicated to the campus. You can call DMU Security on **0116 257 7642** if you have any concerns while on campus.
