Teaching, Learning and Assessment Strategies

You must first apply for a notification letter from the NMC in order to assess whether you are able to register with the NMC. For information about the entry requirements set by the NMC please visit www.nmc-uk.org.

- A first level nursing registration from a country outside the EU (evidenced by original certificate).
- An NMC Assessment letter outlining the requirements for you to join the NMC register
- A tier 2 work sponsored visa, or indefinite leave to remain in the UK
- NMC notification letter detailed additional education (2 yr validity from issue date)
- Certified copies of the following Educational Certificates IELTS 7.0 in all components

- Two employment references (one from current employer) for good character and health
- Relevant ID documentation
- RN Certificate from home country
- Two employment reference; with one from your current employer
- A first level nursing registration from a country outside the EEA (evidenced by original certificate)
- Immunisation record

You must send certified copies (signed by solicitor) of the documents the NMC requests with your application form to us. A full list of what is required is present on the application form. We will ask you to present the original copies of these documents to our International Admissions Office once we have confirmed your place on the course

If you are undertaking a period of supervised practise then you must also complete an occupational health check, declaration form, enhanced Disclosure and Barring Service disclosure application form and a criminal record certificate from your home country before starting the course, which needs to be cleared in accordance with DMU's admissions policy. Contact us for up-to-date information

Interview required: No

International students:

If English is not your first language, we require an English language level of IELTS 7.0 overall as well as 7.0 in each section, or equivalent.

For further information about application to the NMC please visit their website here www.nmc-uk.org

For further information about the tier two work sponsored visa please visit the UK Border Agency website here ukba.homeoffice.gov.uk

--

Procedures for Maintaining Standards

Students achievement on this module will be monitored on an ongoing basis so that underachievement can be identified investigated and appropriate remedial action taken. Each time the module is delivered, the students will evaluate it. Their feedback will be taken into consideration and could initiate the review and if appropriate the revision of the module. Key aspects requiring attention will be incorporated into the Programme Enhancement Plan for discussion and action at the SAB-Management Board. Feedback from employers will be sought in terms of how well the module contributes to developing the clinical competence of clinical staff in health care. As the module may also be used in other programmes it will also be monitored periodically by the Nursing and Midwifery Council as part of the monitoring and review exercise. In addition it will also be reviewed by the university's periodic review process as well as the schools key contributors.
